Privacy Policy

Jatisari Inovasi Studio - Developer of this Applications – respect the privacy concerns of our users. We have created this Privacy Policy to explain what we do with information gathered from users, how it is being gathered, stored and managed.

This page informs you of our policies regarding the collection, use, and disclosure of personal data when you use our Applications and the choices you have associated with that data.

We use your data to provide and improve our Applications. By using the Applications, you agree to the collection and use of information in accordance with this policy. Unless otherwise defined in this Privacy Policy, terms used in this Privacy Policy have the same meanings as in our Terms and Conditions.

Information about User Data Collection and Use

We collect several different types of information for various purposes to provide and improve our Applications to you.

The Data that we collect automatically

- Mobile device identifiers such as device ID and advertising ID
- General location data (e.g. country)
- Cellular network operator
- Device information such as device name, operating system, screen size, browser type, and language
- IP address
- App usage data and interaction events

The Types of Data We Don't Collect

In our Applications, we do not collect personal content data such as personal notes, messages, or files created by users.
Only you can see your personal data unless you consciously and explicitly submit that data to us.

Why Do We Collect Your Data?

Advertising

We collect data to show advertisements. The data is utilized for advertising communication purposes displayed in the form of banners and other advertisements within the Applications, possibly based on user interests.

Some services may use cookies or similar technologies to identify users or use behavioral retargeting techniques. For more information, please check the privacy policies of the relevant services.

AdMob

Our Applications use advertising services provided by **AdMob (Google Inc.)**.
AdMob uses collected data to display relevant advertisements and collect statistical information to measure ad effectiveness.

Personal Data collected:

- Advertising ID
- Usage data

Privacy Policy: https://policies.google.com/privacy

Firebase Services

Our Applications also use **Firebase**, a platform provided by **Google LLC**, to support application functionality and improvement.

Firebase services may include:

- **Firebase Analytics** – to understand how users interact with the Applications
- **Firebase Crashlytics** – to monitor application crashes and stability
- **Firebase Cloud Messaging** – to send notifications (if enabled by the user)
- **Firebase Remote Config** – to manage app configuration remotely

Data collected by Firebase may include:

- Device information (model, operating system version)
- App instance identifiers
- App usage events and performance data
- Crash logs and diagnostics information
- IP address (processed in an anonymized or aggregated form)

This data is used **only to improve application performance, stability, and user experience**, and is processed in accordance with Google's privacy and security standards.

More information about Firebase privacy can be found here:
https://firebase.google.com/support/privacy

For Analyzing Problems and Issues in the App

We use collected data to analyze reported problems and technical issues to help us improve the Applications. This helps ensure better performance and stability for users.

Who Can See Your Data?

Apart from us, your data may be accessed in the following situations:

Partners

Partners working for **Agus Haryanto (Jatisari Inovasi Studio)** may process data on our behalf only according to our instructions and solely to provide services such as hosting, analytics, advertising, user support, and fraud prevention.

Google Analytics

Google Analytics is a service provided by Google that tracks and reports application usage. Google may use the collected data to monitor usage and may share it with other Google services.

For more information, please visit:
https://policies.google.com/privacy

Links to Other Sites

Our Applications may contain links to third-party sites that are not operated by us. We strongly advise you to review the Privacy Policy of every site you visit.

We have no control over and assume no responsibility for the content, privacy policies, or practices of third-party sites or services.

Changes to This Privacy Policy

We may update this Privacy Policy from time to time. Any changes will be posted on this page.

Last updated: Dec 21, 2025

Your Consent

By using our Applications or services, you consent to this Privacy Policy and all third-party Privacy Policies mentioned above.

You are advised to review this Privacy Policy periodically for any changes. Changes are effective when posted on this page.

Contacting Us

If you have any questions about this Privacy Policy, you can contact us at:
