Privacy Policy

Last Updated: 10th October 2025
Version: 3.0

1. Introduction

1.1. Comera is an end-to-end encrypted internet calling and messaging application that offers text messaging, voice and video calling, group chats, and media sharing services, as well as an integrated platform called Comera Souq for accessing third-party services. This Privacy Policy explains how Comera Technology L.L.C. (**"Comera", "we", "us"** or **"the Company"**) collects, uses, shares, and protects your personal data when you use the Comera mobile app and the Comera Souq platform (collectively, our **"Services"**). We are committed to protecting your privacy and handling your personal data in compliance with all applicable laws, including the UAE Federal Decree-Law No. 45 of 2021 on Personal Data Protection (PDPL), and the EU General Data Protection Regulation (GDPR). By using our Services, you agree to the collection and use of your information as described in this Privacy Policy and our Terms of Use.

1.2. We act as the "data controller" of your personal data when providing the Services (meaning we determine the purposes and means of processing). For any third-party services accessed via Comera Souq, the respective third-party providers are independent controllers of any personal data you provide to them, and their own privacy policies will apply. We encourage you to review those third-party privacy policies when using Comera Souq features.

2. User Consent and Legal Basis

2.1. By registering for or using Comera, you consent to our collection, processing, and transfer of your personal data as needed to provide the Services and as otherwise permitted by law. This includes information you provide directly, information collected automatically, and information from third parties. We rely on different legal bases for processing under applicable laws, including your consent (for example, for optional features or marketing communications), performance of a contract (to provide the Services you request), compliance with legal obligations, and our legitimate interests (such as improving and securing our app), always balanced with your rights and expectations.

2.2. You have the right to withdraw your consent at any time. If you withdraw consent, we will stop processing your data that relied on consent; however, this will not affect the lawfulness of any processing already carried out. Please note that withdrawing consent may mean we cannot provide certain features or Services. If you wish to withdraw consent, you can delete your account or adjust your settings. Deleting your Comera account will remove your personal data from our systems (except for data we are required or permitted to retain by law).

3. Information We Collect

We collect various types of information from and about you when you use Comera, including:

3.1. **Information You Provide:** You may provide personal data directly to us:

3.1.1. **Account Information:** When creating a Comera account, you provide your mobile phone number and a profile name or nickname. You may also add an optional profile photo and status message to your profile.

3.1.2. **Contacts:** If you grant the app access to your phone's contact list, we collect phone numbers and names from your address book to help you connect with friends on Comera. We use this information to show you which of your contacts are using Comera. Contacts who are not yet on Comera are hashed or processed in a way that prevents us from identifying them. You can always choose not to grant contact access; however, certain social features (like identifying Comera users in your contacts) will be limited.

3.1.3. **Messages and Call Content:** Comera is end-to-end encrypted (except for the exceptions provided in Terms of Use), which means we do not have access to the content of your personal messages or calls. Messages are stored on your device and not on our servers once delivered.

3.1.4. **User Communications:** When you contact Comera for support or otherwise communicate with us, you may provide us with your name, email address, and the content of your inquiry. We will retain such correspondence and information as needed to respond and resolve your issue, consistent with this Policy.

3.1.5. **Optional Features:** You may choose to provide additional information when using certain features. If you share your location in a chat, we will collect and transmit your geolocation to your chosen contacts with your permission; we do not track your location in the background or use your location for any other purpose without consent.

3.1.6. **Information Collected Automatically:** When you use Comera, we automatically collect certain technical and usage data:

3.1.6.1. **Usage and Log Data:** We gather diagnostic and performance information such as log files, crash reports, and usage logs. This helps us troubleshoot issues and improve our Services.

3.1.6.2. **Device and Connection Information:** We collect data about your mobile device and network when you install or use Comera. This includes device model, operating system version, hardware identifiers, app version, browser type (for web access), battery level, mobile network or ISP, regional and language settings, time zone, and IP address. We may also collect your device's unique identifiers (such as device ID or SIM IMSI) as needed for account security and to prevent unauthorized access.

3.1.6.3. **Cookies and Similar Technologies:** Like most online services, we use cookies and similar tracking technologies in our app and website to store preferences and gather analytics data. For example, cookies help us keep you logged in on our web portal and remember your choices. We also use cookies or mobile SDKs to analyze how users interact with our Services (e.g., which features are most used) and to customize your experience. You can

manage cookie preferences via our website's cookie settings or your browser settings. For mobile app analytics, you can reset your advertising identifier or opt out of personalized ads in your device settings. For more information, please see our Cookie Policy.

3.1.7. **Information from Third-Party Sources:** We may receive information about you from other users or external sources:

3.1.7.1. **Your Contacts on Comera:** Other Comera users may provide your phone number and name (for example, by syncing their address book). They may also send you messages or call you. We require that users only share information they have the right to share.

3.1.7.2. **Third-Party Login or Import:** If we enable third-party account integration (for example, logging in via a social media account or importing a profile picture from another service), we will obtain information from that third party with your permission, such as your profile name and avatar from that account.

3.1.7.3. **User Reports:** If another user or a third party reports you for violating our Terms (e.g., for spam or abuse), we may receive information as part of that report, including the reporter's user ID and the content of the report. We will only use this information to review and address the issue in accordance with our policies.

4. Comera Souq and Third-Party Services

4.1. Comera Souq is a feature within the Comera app that allows you to access a variety of services offered by independent third-party providers. These services are integrated via secure iframes or APIs to provide a seamless in-app experience. When you choose to use a third-party service through Comera Souq:

4.1.1. **Data Collection by Third Parties:** You may be asked to provide information directly to the third-party service provider. Such information is collected by the third-party within the embedded iframe or via the API integration, and is subject to that provider's own privacy policy. Comera does not receive the content of forms you fill in an embedded third-party page, unless it is necessary for the integration to function.

4.1.2. **Data Shared by Comera:** To facilitate the integration, we might share limited data with the third-party service. For instance, if a Comera Souq game or service needs to identify your Comera account, we may confirm your user ID or phone number, or if you choose to use an AI chatbot, we may transmit your query to the AI service provider to get a response. We will only share the minimum data necessary for the service to operate, and only with your initiation. No third-party service receives your Comera messages or contacts from us, unless you actively invoke that service to do so.

4.1.3. **Independent Responsibility:** Third-party providers accessible through Comera Souq are independent controllers of the data they collect. Comera is not responsible for how third-party providers handle your information, and their actions are not governed by this Privacy Policy. However, if you encounter an issue with a third-party service integrated in our app, we would appreciate feedback and will endeavor to ensure the security of integrations. We strongly recommend you review the privacy policy of any third-party service before proceeding.

5. Payment Processing and Financial Data

5.1. When you make a payment or transact through Comera (for example, purchasing a service on Comera Souq) and if the payment is handled by the Comera authorized payment processor, your payment and financial information will be handled securely. Comera uses trusted third-party payment processors to process transactions (e.g., credit card payments or money transfers). If you choose to make a purchase:

5.1.1. We may collect information such as your name, billing address, and transaction details (item purchased, amount, date and time). This information is used to process your order, provide you with customer support, and comply with financial record-keeping requirements.

5.1.2. **Payment Card Information:** We do not store your full credit/debit card numbers on Comera's servers. Such financial details are transmitted directly to our payment processor via secure encryption and handled in accordance with industry security standards (e.g., PCI-DSS). The payment provider may return to us a token or reference number which we store to keep track of your purchase.

5.1.3. Our payment processors are contractually obligated to protect your data and to use it only for processing transactions. They might have their own privacy policies which you should review when providing payment information.

5.1.4. If any refunds or chargebacks are involved, we will use the transaction data to resolve those issues.

5.1.5. Please note that for certain financial services or money transfer features offered in Comera (if applicable), additional terms and identity verification requirements might apply, which will be communicated to you within those services.

6. How We Use Your Personal Data

6.1. We use the personal data we collect for the following purposes, in accordance with your settings and applicable law:

6.1.1. **To Provide and Maintain the Services** We use your information to create and manage your account, allow you to communicate with others (e.g. routing your calls and messages), and provide the features you request. For example, we use phone numbers to connect calls and deliver verification OTPs, and we use contact data to show you your friends on Comera.

6.1.2. **To Improve and Customize the Service** We process usage data and device information to understand how our Services are used and to make improvements. This helps us fix crashes, enhance security, and refine features. We may also use your information to personalize your experience, such as suggesting relevant new features or content. If we introduce advertising, we may use certain data (like your general location or usage patterns) to show you more relevant ads or promotions within Comera.

6.1.3. **To Communicate with You** We may send you service-related communications (for example, updates about our terms or privacy policy, confirmations of account changes, or security alerts). We may also send you marketing communications about new features or promotions, but you can opt-out of marketing messages at any time.

6.1.4. **To Provide Support** We use information you provide in support requests (such as your email and issue description) to assist you and resolve your questions or problems.

6.1.5. **To Ensure Safety and Integrity** We process data to maintain the safety and security of Comera and its users. This includes verifying user identities (to prevent fraud or impersonation), detecting and preventing malware or illegal activities, addressing abuse (such as spam, harassment, or other violations of our Terms), and enforcing our Terms of Service.

6.1.6. **Legal Compliance** We process personal data as required to comply with applicable laws and regulations. If we receive lawful requests from authorities, we may process data to comply (see Disclosure of Information below).

6.1.7. **To Establish or Defend Legal Claims** If needed, we will use or preserve information to protect our legal rights or address disputes and claims, including enforcing our agreements or defending against any claims. We also do not use your personal data for any purposes other than those described here without informing you and obtaining your consent if required.

6.2. **Automated Decision-Making and AI** Comera may use automated processing and artificial intelligence (AI) in limited ways to operate and enhance the Services and to the extent as provided in our Terms of Use:

6.2.1. **Automated Tools** We use automated systems to help detect spam, malware, or violations of our policies (for example, an automated filter might restrict the delivery of a message found to contain viruses or hate speech). These tools help us keep Comera safe and functional for all users. In general, automated decisions that could significantly affect you (such as banning an account for misuse) involve human review or are made under our Terms of Service enforcement framework.

6.2.2. **AI Features** Comera Souq may offer AI-driven features, such as an AI chatbot or smart assistant. If you choose to use these features, the content you input (e.g. your chatbot queries or messages) will be processed by the AI service provider to generate responses.

6.2.3. **No Legal or Profound Impact without Human Oversight** We do not make solely automated decisions (including profiling) that produce legal effects or similarly significant impacts on you without human involvement, unless such processing is necessary as part of the Service you request or we have your explicit consent, in accordance with Article 22 of the GDPR and Article 18 of the UAE PDPL. This means any decision significantly affecting your rights—for example, account termination or credit eligibility (if we offered financial services)—will involve appropriate human review. You also have the right to object to any automated decision-making or profiling that you feel is unjustified (see Your Rights below).

6.2.4. **Transparency** We will notify you if new AI-driven processing or automated decision mechanisms that materially affect your personal data are introduced. We will also update this Privacy Policy and, if required, obtain your consent or provide opt-out options for such features.

6.3. **Disclosure of Your Information (Information Sharing)**

6.3.1. We share personal data with third parties only as necessary for the purposes described below, and we ensure appropriate safeguards are in place to protect your data.

6.3.2. **With Other Comera Users** Comera is a social communication platform, so certain information is shared with other users by your own actions:

6.3.2.1. When you message or call someone on Comera, that person will see your name, phone number, and any profile photo or status you have set (unless you adjust your privacy settings to restrict visibility). They will, of course, see the content of messages you send them or hear your voice on calls.

6.3.2.2. If you participate in a group chat or group call, other participants will see your messages, name, phone number, and any other information you share in that group.

6.3.2.3. You can control what information is visible to other users via our in-app Privacy Settings (for example, you can hide your profile photo or “last seen” status from non-contacts). Please be aware that users with whom you communicate may always save or re-share your information (for example, a message or photo you send them) with others inside or outside the platform. Comera cannot prevent recipients from capturing screenshots or forwarding content you’ve shared, so please only share content that you are comfortable being saved or spread.

6.3.2.4. When using Comera Souq third-party services, if you choose to share data or content with those services, you are directing us to send that information to the third party. For example, if you use a backup service through Comera (like backing up chats to Google Drive or iCloud), or you order a product via an integrated marketplace, you are consenting to share relevant data with that provider. Those third parties will receive the data needed to fulfill your request (such as your chat content for backup, or your name and address for an e-commerce order).

6.3.3. **With Our Service Providers and Affiliates** We employ trusted third-party companies and individuals to help us provide, support, and improve Comera. These service providers perform tasks under our instruction and on our behalf (acting as “processors” of your data). They include, for example:

6.3.3.1. **Infrastructure and Delivery** Hosting providers for data storage, and network providers to route communications.

6.3.3.2. **Analytics and Crash Reporting** Tools that help us analyze app performance and usage (e.g., to detect crashes or understand user behavior in aggregate).

6.3.3.3. **Customer Support Tools** Platforms that assist with managing support requests or user inquiries.

6.3.3.4. **Marketing and Outreach** Providers that help us send emails or other messages to users (for instance, to announce new features).

6.3.3.5. **Security Services** Partners who assist in protecting our platform from fraud or abuse (such as services to verify accounts or detect bot activity).

6.3.4. We also may share information with our affiliate companies (companies that are under common ownership or control with Comera) for purposes consistent with this Policy, such as improving service functionality or where infrastructure is shared. All these third parties are contractually obligated to handle personal data strictly per our instructions and to provide at least an equivalent level of data protection. They are not permitted to use your data for their own purposes.

6.3.5. **With Third-Party Partners (with your consent)** Comera may, with your consent, share certain information with third-party partners for specific purposes. For instance, if in the future Comera offers an integrated advertising program or loyalty program in partnership with another company, we would share the necessary identifiers or eligibility information. At present, we do not share your personal data with third parties for their own marketing or advertising purposes without your consent. We do not sell your personal data to third parties for profit.

6.3.6. **For Legal Compliance and Safety** We may disclose information about you if we are required to do so by law or legal process, or to respond to valid legal requests by public authorities (such as a subpoena, court order, or government demand). We will only provide the data that we are compelled to disclose and will object to overly broad requests where appropriate. We may also share information when we believe in good faith that such disclosure is necessary to:

6.3.6.1. Investigate, prevent, or take action regarding suspected illegal activities, fraud, or security vulnerabilities;

6.3.6.2. Enforce our Terms of Service or other agreements;

6.3.6.3. Protect the rights, property, or safety of Comera, our users, or the public. This may include exchanging information with other companies and organizations for the purposes of fraud protection and credit risk reduction.

6.3.7. **Business Transfers** If Comera undertakes a merger, acquisition, restructuring, bankruptcy, or sale of some or all of its assets, personal data may be transferred to the successor or assignee as part of that transaction. We will ensure the recipient agrees to respect your personal data in a manner consistent with this Privacy Policy. You will be notified via the app or other means of any change of ownership or uses of your personal information due to such a transaction, as well as any choices you may have regarding your information.

6.4. **Aggregated or De-Identified Data:** We may also share information that has been aggregated or anonymized in such a way that it can no longer be associated with you. For example, we might share general user trends with partners. This information does not constitute personal data and may be shared for lawful purposes.

7. International Data Transfers

Comera is a global service. By using our app, you acknowledge that your personal data may be transferred to and processed in countries other than your own. In particular:

7.1. Our primary server is located in the United Arab Emirates.

7.2. If you are located outside the UAE, your information will be transferred to the UAE (and potentially to other locations where we or our service providers operate). Many of these locations may have data protection laws different from (and potentially less protective than) the laws in your country. We take measures to protect all personal data, regardless of location, as described in this Policy.

7.3. For transfers from the European Economic Area (EEA) or United Kingdom to UAE or any other country not deemed “adequate” by the EU Commission, we implement appropriate safeguards as required by GDPR Chapter V. These may include Standard Contractual Clauses (SCCs) approved by the European Commission, binding corporate rules (if

applicable), or reliance on an approved certification mechanism. We may also rely on derogations in GDPR Article 49 where appropriate – for example, if a transfer is necessary to perform a contract with you (such as routing data to connect an international call) or with your explicit consent in certain cases.

7.4. Under the UAE PDPL, we will likewise ensure that any transfer of personal data outside the UAE is done to jurisdictions approved by the UAE Data Office as having adequate data protection, or we will adopt alternative safeguards (such as contractual agreements) as required by law. We will not transfer UAE users' data out of UAE except in compliance with PDPL's regulations and any future directives of the UAE Data Office.

7.5. Regardless of where your data is processed, we will protect it with the same high standards described in this Policy. We also require our service providers to comply with applicable transfer safeguards.

7.6. If you have questions about our international data transfers or need more information about the safeguards in place, you can contact us at the details provided in the Contact section.

8. Data Retention and Deletion

We retain your personal data only for as long as necessary to fulfill the purposes for which it was collected, as outlined in this Policy, and to comply with applicable legal requirements. This means:

8.1. **Account Information:** We keep your basic account details (like phone number and profile info) for as long as your account is active. If you delete your account, we will remove or anonymize this information within a reasonable time frame, except where we must retain certain data for legal reasons.

8.2. **Messages:** As noted, Comera does not permanently store the content of your messages once delivered. Undelivered messages are held (in encrypted form) for up to 30 days, after which they are deleted from our servers. Delivered messages and call content reside only on user devices (and any backups you have made).

8.3. **Third-Party Services Data:** Any data shared with third-party providers via Comera Souq is not stored by Comera beyond what is necessary to facilitate the connection. For example, if you link a third-party account, we store the token or status needed to maintain the link, until you unlink or delete your account.

8.4. **Logs and Analytics:** We retain app logs, crash reports, and analytics data typically for a shorter period (for approx 12 months) to identify trends and issues, unless we need to keep it longer for legal purposes. Such data is generally aggregated or de-identified over time.

8.5. **Financial Records:** Transaction records and payment-related data is retained as long as required under financial regulations and accounting laws (which may mandate keeping records for a number of years). We restrict access to this data to only those who need it for compliance or auditing.

8.6. **Legal Holds:** If we are subject to a legal obligation to preserve data (e.g., a court order to retain data related to an investigation), or if data is needed to resolve a dispute or enforce our rights, we will retain the specific data for that purpose and for the period required (and no longer than necessary).

When the retention period for a piece of data expires, or if you request deletion and no exception applies, we will securely erase your data in our possession. If complete deletion is not immediately feasible (for example, because the data is stored in secure backups), we will isolate and protect the data from further use until deletion is possible.

Deletion Requests: You have the right to request deletion of your personal data at any time (see Your Rights below). Upon a verified deletion request, we will delete your data (and direct our processors to delete it) unless retention is required by law. Note that deleting your Comera account will remove your personal information and message content from our live systems, and you will not be able to recover that information once the account is deleted. However, any content you shared with other users (for example, messages you sent) may still be retained in those recipients' devices or accounts for which we will not held responsible for.

9. Data Security

We employ appropriate technical and organizational measures to secure your personal data and protect it from unauthorized access, loss, misuse, or alteration. These measures include:

9.1. **Encryption in Transit:** All communications between the Comera app and our servers are encrypted via HTTPS/TLS. This prevents eavesdropping on data as it travels over networks.

9.2. **End-to-End Encryption:** As described, personal chats and calls on Comera are end-to-end encrypted by default. This encryption ensures that only you and the intended recipient(s) can decrypt the content of messages and calls – not even Comera as the service provider can read or listen to them. This provides robust confidentiality for your conversations.

9.3. **Encrypted Storage:** Sensitive data stored on our servers (such as authentication tokens, or the temporary encrypted message backups for undelivered messages) is encrypted at rest. Access to decryption keys is tightly controlled and limited to authorized systems or personnel.

9.4. **Access Controls:** We restrict access to personal data to Comera employees, contractors, and agents who need to know that information to operate, develop or support our Services. They are subject to strict confidentiality obligations and may be disciplined or terminated if they fail to meet these obligations.

9.5. **Monitoring and Testing:** We regularly monitor our systems for possible vulnerabilities and attacks, and we perform periodic security assessments and penetration testing to evaluate the strength of our defenses.

9.6. **Secure Software Practices:** We follow secure coding practices in developing our app and backend, and we promptly apply security patches and updates to software and infrastructure.

9.7. **Breach Notification:** In the unlikely event of a data breach that affects your personal data, we will notify you and the relevant authorities as required by law, and take all steps necessary to mitigate the impact.

While we strive to protect your data, no method of transmission or storage is 100% secure. Therefore, we cannot guarantee absolute security. You should also take steps to protect your account, such as choosing a strong PIN (if applicable), protecting your device, and notifying us of any suspected unauthorized account access.

If you receive any communication that purports to be from Comera asking for your data (such as your OTP or PIN), please exercise caution – we will never ask you for sensitive authentication information via unsolicited communications. If you suspect any misuse of your account or a security breach, contact us immediately.

10. User Controls and Account Management

We provide you with several controls to manage your privacy and personal information on Comera:

10.1. **Privacy Settings:** In the Comera app settings, you can control who sees your personal info. For example, you may set your profile photo, status message, or last seen timestamp to be visible to everyone, only to your contacts, or to nobody. You can also configure who can add you to group chats, and block specific users from contacting you. We encourage you to review these settings and adjust them according to your comfort level.

10.2. **Updating Your Information:** You can edit your profile at any time in the app (change your name, update your status, or profile picture). If your phone number changes, you can use our in-app change number feature to migrate your account to a new number. Keeping your information up-to-date helps us ensure you can continue to use the app seamlessly.

10.3. **Managing Contacts:** You can add or remove contacts from Comera. If you have synced your phone contacts and later wish to revoke that permission, you can do so in your device settings; this will stop further sync and you can request we delete any contacts data stored (though normally we store non-user contacts in a hashed form). You can also mark certain contacts as 'Permanent' within Comera to back them up for easy recovery on a new device, or remove such designations at any time.

10.4. **Notifications and Preferences:** Through your device or app settings, you can control Comera notifications (for example, disabling message previews, or muting notifications for certain chats). You may also opt out of certain data collection: for instance, you can disable location sharing permissions if you do not want to use that feature, or decline optional diagnostic data collection if prompted.

10.5. **Account Deletion:** You have the option to delete your Comera account at any time from within the app. Please be aware this is irreversible – deleting your account will erase your personal data and message history from Comera (other than data we may need to retain for legal reasons). It will also remove you from any Comera groups. Undelivered messages to you will be deleted from our servers, typically within up to 30 days. Some basic information (like transaction records or support emails) might be retained as required by law, but will be disassociated from your identity where possible. If you reinstall Comera after deleting your account, you will need to sign up again as a new user.

11. Your Rights as a Data Subject

11.1. Depending on your jurisdiction, you have certain legal rights over your personal data. Comera is committed to upholding these rights, and in many cases, we extend the same rights to all users regardless of location. Your principal rights under the GDPR and UAE PDPL (and similarly under other laws) are as follows:

11.1.1. **Right to Be Informed and Access Your Data:** You have the right to know what personal data we have about you and to request a copy of that information. This includes information about the categories of data, the purposes of processing, the third parties with whom we share data, and how long we keep data. You also have the right to obtain more detailed information about automated decision-making that affects you and about the safeguards used for data transfers. We will provide you with a copy of your personal data undergoing processing upon request, free of charge (unless requests are repetitive or excessive, in which case a reasonable fee may apply as permitted by law).

11.1.2. **Right to Rectification:** If any of your personal data is inaccurate or incomplete, you have the right to have it corrected or updated without undue delay. You can correct most basic profile information directly in the app. For other data that you cannot edit (like contact information that was synced, or data we have on our servers), you can contact us to request correction.

11.1.3. **Right to Erasure ("Right to be Forgotten"):** You have the right to request deletion of your personal data in certain circumstances. This right applies, for example, if the data is no longer necessary for the purposes collected, if you withdraw consent and no other legal basis for processing exists, if you object to processing and we have no overriding legitimate grounds to continue, or if we processed the data unlawfully. If you ask us to delete your data, we will do so, provided that no lawful exception applies. Note that this right is not absolute – for instance, we may retain data needed for legal compliance or to establish/defend legal claims.

11.1.4. **Right to Restrict Processing:** You have the right to request that we limit the processing of your personal data in certain scenarios. For example, if you contest the accuracy of your data, you can request we restrict processing while we verify the data; or if you object to processing, you can ask us to limit use of data while we consider your objection. When processing is restricted, we will continue to store your data but not use it (except for certain things like consent or legal claims).

11.1.5. **Right to Object to Processing:** You have the right to object to certain types of processing of your data, particularly processing based on our legitimate interests or for direct marketing purposes. If you object, we will stop processing your data for that purpose unless we have compelling legitimate grounds that override your rights, or if needed for legal claims. Where you object to processing for direct marketing, we will honor that unconditionally (we will stop the marketing use).

11.1.5.1. **Right to Object to Direct Marketing:** Comera does not currently send third-party ads, but if we ever do or if we use your data for direct marketing, you can opt-out at any time and we will cease such use for your data.

11.1.5.2. **Right to Object to Automated Decisions:** As noted, you can object to decisions made solely by automated means if they have a significant effect on you. We will then provide an opportunity for human review or otherwise accommodate your request as required by law.

11.1.6. **Right to Data Portability:** You have the right to receive the personal data you provided to us in a structured, commonly used, machine-readable format, and to have that data transmitted to another service provider where technically feasible. This right applies when our processing is based on your consent or on a contract with you, and is

carried out by automated means. We support data portability by allowing you to export certain data (for example, you may be able to export your chat history or account info) and will otherwise work with you to transfer your data to a third party if you request.

11.1.7. **Right to Withdraw Consent:** If we rely on your consent to process personal data, you have the right to withdraw that consent at any time. Withdrawing consent will not affect processing that has already occurred, but will take effect for future processing. If you withdraw consent for a feature (like location access), we will stop processing your data for that purpose. If you withdraw consent entirely by deleting your account, we will delete your personal data as described above.

11.1.8. **Right to Lodge a Complaint:** If you believe your data protection rights have been violated, you have the right to file a complaint with a supervisory authority.

11.1.8.1. For users in the European Economic Area (EEA) or United Kingdom, you can lodge a complaint with your country's Data Protection Authority (for example, in the EU, with the supervisory authority in the Member State of your habitual residence or where an alleged infringement occurred).

11.1.8.2. In the United Arab Emirates, you can raise a complaint with the UAE Data Office, the national regulator established under the PDPL. Additionally, if your issue pertains to a consumer right (like in a financial service context), you may contact the Consumer Protection Department at the Central Bank of UAE.

12. Children's Privacy

12.1. Our Services are not directed to children, and we do not knowingly collect personal data from children. If you are minor as per the applicable laws, then you are not permitted to use Comera. If we learn that we have inadvertently collected personal information from a child below the applicable age, we will promptly delete such information. Parents or guardians should supervise their children's use of online services and can request us to remove any information inadvertently collected from their minor children by contacting us at our privacy contact email.

12.2. If you are a parent or guardian and believe your child under the age of consent has provided personal data to Comera without your consent, please contact us immediately. We will take steps to delete the data as soon as possible.

12.3. Note: For users in the European Union, where GDPR applies, the age of consent for online services may be 16 (unless lowered by a member state, but not below 13). For the UAE PDPL, similar protections for minors' data may apply. We abide by all such requirements in the jurisdictions we operate.

13. Changes to this Privacy Policy

13.1. We may update or revise this Privacy Policy from time to time to reflect changes in our practices, technologies, legal requirements, or for other operational reasons. If we make material changes, we will notify you by means of a prominent notice within the app or via other communication, and/or seek your consent where required by law. The "Last Updated" date at the top of this Policy will indicate when the latest changes were made. We encourage you to periodically review this Policy to stay informed about how we are protecting your information.

13.2. Your continued use of Comera after the effective date of an updated Privacy Policy constitutes your acceptance of the revised terms. If you do not agree to the changes, you should stop using the Services and may delete your account.

14. Contact Us

If you have any questions, concerns, or requests regarding this Privacy Policy or your personal data, please contact us using the information below. We will address your inquiry as promptly as possible.

Comera Technology L.L.C. (Data Controller)

Address: Masdar City, Abu Dhabi, United Arab Emirates, P.O. Box 130666
