Niantic Privacy Policy

Effective as of: May 29, 2025

We are Niantic. We provide real-world augmented reality experiences, including mobile game applications, designed to enable you to interact in shared worlds, seamlessly blended with the real world. To do that, we need information that can or could be used to identify, relates to you, or could be reasonably linked to you, directly or indirectly ("**Personal Data**"). Protecting your privacy is really important to us. We only use your Personal Data where we have a legal basis to do so. This Privacy Policy will help you understand what Personal Data we collect, how we use it and what choices you have when you play any of our games or use any of our apps, use our websites, buy merchandise from us, or take part in live events and promotions (the "**Services**").

Our Privacy Policy is designed to give you a comprehensive understanding of the steps that we take to protect the Personal Datathat you share with us, and we would always recommend that you read it in full. Younger players, however, may wish to check out our '**Privacy Explorers**' page, which is designed for younger players for an overview of the key points in this policy presented in a more accessible format.

You should also read our **Terms of Service** which set out the contract between you and Niantic when you use our Services.

1. Who decides how your Personal Data is used?

Niantic, Inc. (Pier One, Bay 3 , San Francisco, CA 94111) generally is the data controller responsible for making decisions about how we use your Personal Data. If however you are based in the United Kingdom (UK), Switzerland or the European Economic Area (EEA), your data controller is Niantic International Limited in the UK (Suite 2 First Floor, 10 Temple Back, Bristol, United Kingdom, BS1 6FL).

If you have any questions or comments on this policy, you can:

- Email us at **privacy@nianticlabs.com**
- Contact our Data Protection Officer at **dpo@nianticlabs.com**

2. The Personal Data we collect about you and how we use it

This Privacy Policy covers our use of your Personal Data.

- Some of our Services require you to register with us or sign up for an account before you can use them. Where this is the case, you provide us with Personal Data including your age and the in-app username that you choose to use on our Services. We collect and use this Personal Data in order to authenticate you when you register an account and use the Services, to make sure you are eligible and able to receive the Services, and so that you receive the correct version of the Services.
- You may be required to have an account with a supported external single sign-on service in order to use some of our Services. Where this is the case, the Personal Data we collect also depends on which external accounts you choose to use, their privacy policy, and what your privacy settings with those services allow us to see when you use their services to access Niantic Services.
    - If you choose to link your Google account to the Services, we will collect your Google email address and an authentication token provided by Google.
    - If you choose to link your Facebook account to the Services, we will collect a unique user ID provided by Facebook and, if permitted by you, your Facebook registered email address.
    - If you choose to link your Apple account to the Services, we will collect your email address on file with your Apple ID account or a private relayed email address if you use the Hide My Email option provided by Apple.
    - If you choose to link your Pokémon Trainer Club ("PTC") account administered by The Pokémon Company International ("TPCI") to participating Services, we will collect from TPCI your PTC registered email address, your PTC username, your PTC date of birth, and a unique PTC user ID. If you are registering your PTC account on behalf of your authorized child we will also collect some Personal Data about your child. See Section 8 ("Children") for more information.
    - If you choose to link your Nintendo account to participating Services, we will collect a unique user ID provided by Nintendo and your email address on file with your Nintendo account (if available). You may also choose to import your Mii avatar into certain Services. If you are registering a Nintendo account on behalf of your authorized child we will also collect some Personal Data about your child. See Section 8 ("Children") for more information.
- Depending on the particular Service you sign up for, we may support other external single sign-on services and collect additional Personal Data from them. Some external providers may notify you that they make additional Personal Data , such as your public profile, available to us when you use their single sign-on services. We do not collect that information from them.
- We collect and use your device location information as you use our Services (and, if you elect to turn on background location tracking for participating Services, while you are not directly interacting with these Services), including how you move around and events that occur during in app activity or gameplay.

operate these apps and games for you, and to plan the location of in-game or in-app resources (for example PokéStops within Pokémon GO). We identify your location using a variety of technologies, including GPS, the WiFi points you are accessing the Service through and mobile/cell tower triangulation.

- We also collect and use your in-game or in-app actions and achievements, as well as certain information about your mobile device (including device identifiers, device OS, model, configuration, settings, and information about third-party applications or software installed on your device), to operate the Services for you and to personalize your gameplay and user experience. We will also generate an internal account ID when you use certain Services to associate you with an account.
- We also use the information above to show in-game sponsored locations that are in your vicinity as part of the gameplay experience.
- We further use the information above in order to provide technical and customer support to you.
- You also give us Personal Data when you make a purchase through us, subscribe to our publications, register for a live event, enter a competition, promotion, sweepstakes or survey or communicate with us. Depending on which of these Services you use, that may include your name, mailing address, phone number, country of residency, age, and email address. We use that information to fulfill those Services to you and to provide related customer support to you and to perform system maintenance and debugging
- Our games and apps include innovative features which allow you and other players to view and interact with the same virtual objects at the same time in a shared physical space. They also allow you to leave persistent virtual objects at real world locations, so other players can see them even when you are not there, and so you can see them when you return. In order to provide you with these AR experiences, geospatial data and images from your device camera and sensors will be collected directly by a trusted Third-Party Service AR company during these AR experiences.

In addition, we have and rely on a legitimate interest in using your Personal Data as follows:

- Using your IP address, browser type, operating system, the web page you were visiting before accessing our Services, the pages of our Services which you browsed or the features you used, and the time spent on those pages or features, the links on our Services that you click on, device and advertising identifiers, age, as well as actions you take during gameplay, your in-app user settings, preferences (including avatar characteristics), and your in-app purchases to learn about our users, and understand who is using our Services and how.
- Using your contact information, namely your email address in order to communicate with you to provide technical and customer support.

submit to Niantic through the Services. You can choose to opt out of having your in-game username attributed on your Wayfarer submissions across Niantic products by going to the Niantic Wayfarer settings.

- Using your email address and device information in order to share updates and news with you either within the apps or by email. You can unsubscribe from these at any time in your device settings or in-app settings.
- Analyzing your in-game actions and achievements to show you rewards, promotions, or other offers about our Services that are tailored to your personal user experience. You can choose to opt out of this and certain other processing of your Personal Data by following the steps described in Section 7 ("Your rights and choices").
- To show advertising to our users, including advertising promoting Niantic apps shown on other websites and online services (including targeted ads only outside the United States), and non-targeted ads (typically in the form of sponsored gifts) in our apps. You can choose to opt out of receiving these sponsored gifts by visiting the in-app settings. If you are a U.S. resident of any of the states described in Section 11 ("Disclosures specific to residents of certain U.S. states") see Section 11 for additional disclosures regarding your rights. You can choose to opt out of targeted ads shown on other websites or online services by visiting the settings on your device and turning off "Allow Apps to Request to Track" or activating "Limit Ad Tracking" on Apple devices, or activating "Opt-out of Interest Based Ads" on Android devices.
- We collect content you contribute such as images, text, and/or video to provide social features within our games and apps so you can interact and play with other players, including storing and displaying your communications, content, and other information shared with those players, finding your friends and being found by them, including through imported contacts, and sharing your gameplay or in-app experience and achievements with your friends or other players. You can visit your Niantic Profile or in-app settings for opt-out options. If you elect to contribute routes, or share images of real world public places on our services with associated location information, we may use that information to improve our products and services. We use a mix of automated and manual review to detect and moderate content you contribute to our Services to protect Niantic, or to protect the rights and safety of others.
- To improve the features that we offer you through the Services, or to provide you with new or additional features for our Services.
- To organize and run live events based on or featuring our games. Note that when you participate in live events your in-game actions and achievements, in-game username and your avatar, team, and other components of your in-game profile will be visible to other event participants and to the public (for example on leaderboards displayed at the event and online).
- Using your in-app actions and achievements, transactions, as well as certain information about your mobile device (including device identifiers, device OS, model, configuration, settings, and information about third-party applications

abuse, and to provide a fair gaming experience to all players.
- To make legal or regulatory disclosures and to establish, exercise, or defend legal claims.

We will only use your Personal Data to do the following if we have your consent:

- If you elect to turn on background activity tracking in our Services (for example Adventure Sync in Pokémon GO) we will collect your Personal Data as you use the Services as well as in the background when you do not have the Services open on your device. This includes your device location and your fitness activity data (such as Step Count, Calories Burned, and Distance Walked). We use background activity tracking to provide you certain functionalities in the Services such as in-game items and rewards tied to your fitness activity level, location, and alerts for nearby gameplay events. You can change your mind and turn off background activity tracking at any time in your device settings or in-app settings.With your permission we use your device's health app (Apple HealthKit if you use an Apple device, or Google Fit if you use an Android device) to collect your fitness activity data: we read and/or write your fitness activity data to your device's health app to operate background activity tracking and to ensure you get "credit" in your device's health app for all of the walking you do while playing our games. We do not use data collected through Apple Health Kit or through Google Fit for marketing or advertising purposes. Our Services cannot read from or write to your device's health app without your consent. You can change your mind and disable our access to any type of fitness activity data at any time in your Apple Health or Google Fit app settings on your device.
- If you elect to enable the Facebook User Friends permission available in some of our games, we will import from your linked Facebook account the list of your friends who also play the game and enabled Facebook User Friends. If you enable that permission, your Facebook profile picture and the name on your Facebook account will be visible to your friends in-game. You can change your mind and unfriend other players at any time from your in-app Friends settings. You can also revoke Facebook permissions for our games directly from your Facebook account settings.
- If you elect to add information about Niantic live or in-game events to your mobile calendar, we will, with your permission, access your device's calendar and write in these events. We do not access or collect any other information from your calendar. You can change your mind and disable access to your calendar at any time in your device settings.
- If you elect to help efforts to develop new Augmented Reality (AR) mapping technology, you have the option, in participating games, to opt in to film public spaces around points of interest and upload your video recordings, along with associated device geospatial information. Audio is not collected on these recordings.When you elect to upload the recording, you are sharing the recording directly with a Third-Party Service and limited Personal Data will be transmitted to the Third-Party Service during the upload in a pseudonymized

the Third-Party Service without additional identifiers held separately by us. We will not retain a copy of your recording. This pseudonymized information will be used by the Third-Party Service to build a 3D understanding of real-world places and related technologies and services..You can change your mind at any time and disable this upload and recording feature and associated sharing on a going-forward basis with the Third-Party Service in your in-app settings.
- If you elect to connect your game account with an authorized external device, such as the Pokémon Go Plus or Poké Ball Plus, we request Bluetooth permissions from your mobile device in order to connect it with the external device and enable associated game features. For the Pokémon Go Plus + device, you may also elect to share sleep data with Pokémon GO, which will be used only for the purpose of calculating rewards and displaying sleep activity in-app. You may change your mind at any time by disabling our access to Bluetooth in your device settings or by disconnecting the external device from the game.
- If you elect to import your device's address book contacts to find out which of your contacts uses our Services and to send them Friend requests, or invite them to join you in our games, apps or other aspects of our Services, we will periodically sync your contacts' information, including phone number, and email, to our servers. You are responsible for ensuring your collection and sharing with us of your contacts' information is compliant with applicable laws. This may require you to obtain your contacts' permission. We may also get information about you from other Niantic users importing or entering their contacts. We use and may store this contact information to help you and your contacts connect through our Services. You can change your mind and turn off Niantic's access to your contacts at any time in your device settings.
- If you elect to upload content, such as photos or videos from your mobile device, into our Services, we will, with your permission, access your device's media storage. You can change your mind and disable access to your media storage at any time in your device settings.
- Send you marketing materials by email or via in-app notifications. You can unsubscribe from these at any time in your device settings or in-app settings.

We also rely on your consent where we use cookies or similar technologies. Please see our Cookie Policy for more information about how we use them. Insofar as cookies collect Personal Data, we will process it only based on your explicit consent, in anonymized form, or under a pseudonym.

While you may disable the usage of cookies through your browser settings, Niantic currently does not respond to a "Do Not Track" signal in the HTTP header from your browser or mobile application due to the lack of industry standard on how to interpret that signal.

3. Who we share Personal Data with

Personal Data Shared with Our Service Providers. We engage external Service Providers to work with us to administer and provide the Services. As part of that they will process your Personal Data on our behalf. These external Service Providers have access to your Personal Data only for the purpose of performing services on our behalf, in compliance with this Privacy Policy, and we make sure each one is contractually obliged not to disclose or use your Personal Data for any other purpose. The Service Providers we use help us to:

- run, operate, and maintain our Services through third-party platform and software tools;
- perform content moderation and crash analytics;
- run email and mobile messaging campaigns;
- perform game, app, and marketing analytics;
- prevent and detect fraud, abuse, or other harm;
- provide measurement and advertising services to us, including by targeting ads on third-party sites outside the United States (you can opt out of these third-party ad targeting services at websites such as http://www.aboutads.info/choices and http://www.youronlinechoices.eu/);
- administer live events, competitions, sweepstakes and promotions, including registering players, managing check-in and attendance, verifying eligibility and prize fulfillment;
- provide payment attribution;
- provide technical and customer support;
- provide mapping and spatial localization Services; and
- process payments for live events ticketing or other purchases.

Some external service providers may also collect Personal Data directly from you (for example, a payment processor may request your billing and financial information) as a Third-Party Service in accordance with their own privacy policy. Such external Third-Party Service does not share your financial information, like credit card number, with Niantic, but it may share limited information with us related to your purchase, like your zip or postal code.

Personal Data Shared with Other Players or Users. When you use the Services, and in particular when you play our games, use social features within those games (including cross-game features), or take part in live events, we will share certain Personal Data with other players or users. This Personal Data includes your in-game or in-app profile (such as your username, your avatar, your online status, and your team), your in-game or in-app actions and achievements, real-world locations associated with your gameplay, or which gameplay resources you interacted with when playing the game (for example PokéStops within Pokémon GO, or Mushrooms within Pikmin Bloom,), and your in-game messages and related content you share with other players or users. Additionally, certain games or apps link to third-party sharing features on your device that you can use to disclose Personal Data to others

Personal Data Shared with Parents. If you use a Niantic Kids account to access our Services, we will share certain Personal Data with the parent or guardian who permitted you to create your account (such as information about which friends you make in certain games where your parent or guardian has enabled this feature).

Personal Data Shared Publicly: When you use the Services, and in particular when you play our games, use competitive features, contribute content or participate in our forums, the following Personal Data about you may be shared on web pages accessible to the public and therefore become publicly available: your username, in-game or in-app profile, achievements, groups, meetups, and public messages.

Personal Data Shared with Third Parties. We share de-identified data with third parties for performance, industry and market analysis. We may share Personal Data with our third-party publishing partners for their direct marketing purposes only if we have your express permission. We do not share Personal Data with any other third parties for their direct marketing purposes.

Personal Data Disclosed for Our Protection and the Protection of Others. We cooperate with government and law enforcement officials or private parties to enforce and comply with the law. We only share Personal Data about you to government or law enforcement officials or private parties when we reasonably believe necessary or appropriate: (a) to respond to claims, legal process (including subpoenas and warrants); (b) to protect our property, rights, and safety and the property, rights, and safety of a third party or the public in general; or (c) to investigate and stop any activity that we consider illegal, unethical, or legally actionable.

Personal Data Disclosed in Connection with Business Transactions. Information that we collect from our users, including Personal Data, is a business asset. If we are acquired by a third party as a result of a transaction such as a merger, acquisition, or asset sale or if our assets are acquired by a third party in the event we go out of business or enter bankruptcy, some or all of our assets, including your Personal Data, will be disclosed or transferred to a third-party acquirer in connection with the transaction.

4. How your Personal Data is transferred

Niantic operates its Services across the globe. Your Personal Data will likely be transferred and stored in a country outside of your home country, including in the USA, for the purposes outlined in this Privacy Policy to the extent permitted by applicable laws. The data protection laws in these countries may not be the same as in your home country.

If we transfer your Personal Data from the EEA, the UK, or Switzerland to other countries, including the USA, we ensure that a similar degree of protection is

- The country that your Personal Data is transferred to is a country that the European Commission (or the UK or Swiss Governments, respectively, if you are based in the UK or Switzerland) has deemed to provide an adequate level of protection for Personal Data as the EEA, the UK, or Switzerland, as applicable.
- We use specific contracts approved by the European Commission,the UK Information Commissioner's Office, or the Swiss Federal Data Protection and Information Commissioner, as applicable, which give Personal Data the same protection as it has in the EEA, the UK, or Switzerland, as applicable, when we engage with service providers.

5. How we keep your Personal Data safe

We have appropriate legal, organizational and technical security measures in place to prevent your Personal Data from being accidentally lost, used or accessed in an unauthorized way, improperly altered or disclosed. We also limit access to your Personal Data to employees, agents, contractors, and other third parties who have a business need to know. They will only process your Personal Data on our instructions and they are subject to a duty of confidentiality. We have put in place procedures to deal with any suspected Personal Data breach and will notify you and any applicable regulator of a breach where we are legally required to do so.

6. How long we will keep your Personal Data

We keep your Personal Data for as long as we need to provide the Services to you and fulfill the purposes set out in this Privacy Policy. This is also the case for anyone that we share your information with and who carry out services on our behalf.

The primary factors we consider in determining retention periods can include minimum requirements under applicable law, relevant industry standards, the types of data in question (such as its level of sensitivity), relevance to potential litigation or similar proceedings (such as defending ourselves against legal claims), and whether the Personal Data is required to prevent fraud or similar abuse of the Services. When we no longer need to use your Personal Data and there is no need for us to keep it to comply with our legal or regulatory obligations, we will either remove it from our systems or anonymize it so that it can no longer be associated with you. When removing Personal Data, we will take commercially reasonable and technically feasible measures to make said Personal Data irrecoverable or irreproducible.

To learn more about how to request deletion of your Personal Data, please see Section 7 ("Your rights and choices").

7. Your rights and choices

can:

- Request access to the Personal Data we hold about you by submitting a request through the game's in-app help menu. Learn how to contact us through our apps by visiting our Product Support page. We strongly recommend you use the in-game menu to submit your access request, but if you are unable to access the app, you may submit a request by emailing us at privacy@nianticlabs.com. Please note that emailed requests may take longer to process.
- Delete or correct your Personal Data. The easiest way to update your account information is via your in-app settings. You can also submit a customer support request through our support website here or email us at privacy@nianticlabs.com.
- Ask us to stop processing your Personal Data, including for direct marketing and promotional purposes such as tailored rewards, promotions, and other offers, by emailing opt-out@nianticlabs.com. But be aware that sometimes we need to use your Personal Data in order to provide the Services to you.
- Have your Personal Data transferred to another organization (where it is technically feasible).
- Complain to a regulator. We'd appreciate the chance to deal with your concerns directly so we'd prefer you to contact us first. However, if you're based in the EEA, the UK, or Switzerland and believe that we have not complied with data protection laws, you can complain to your local supervisory authority.
- If you're based in the EEA, you can also contact our EU Representative, EDPO. EDPO can be contacted:
    - by using EDPO's online request form: https://edpo.com/gdpr-data-request/
    - by writing to EDPO at Avenue Huart Hamoir 71, 1030 Brussels, Belgium

The law provides exceptions to these rights in certain circumstances. Where you cannot exercise one of these rights due to such an exception, we will explain to you why.

We offer you choices regarding the collection, use, and sharing of your Personal Data and we'll respect the choices you make. Please note that if you decide not to provide us with the Personal Data that we request, you may not be able to access all of the features of the Services.

After you contact us, you may receive an email in order to verify your request. We aim to provide the information or complete the outcome you request within 30 days, or such shorter time period as provided by laws of your jurisdiction.

We will not discriminate against you if you exercise any of these rights.

8. Children

children" as follows:

- Residents of the EEA: anyone under 16 years old, or the age needed to consent to the processing of personal data in your country of residence.
- Residents of the Republic of Korea, anyone under 14 years old.
- Residents of other regions: anyone under 13 years old or the age needed to consent to the processing of personal data in that region.

Niantic Game and App Resources contains information on the age requirement for each of our Apps.

For Services that do permit Child participation, parents or legal guardians ("Parents") must provide verified consent. Verifiable parental consent is required for the collection, use, or disclosure of a child's Personal Data. Niantic will not collect, use, or disclose any Personal Data from a child if their parent or guardian does not provide such consent. We may ask a Child to provide a Parent's email address in order to request this consent, and the Parent's email address will be deleted if consent is not provided within a reasonable time.

Niantic Kids

- Parents can provide and verify their consent through the Niantic Kids Parent Portal, or through another authorized third-party provider made available through the Service. Where Parental consent is required, Niantic recommends that Parents monitor the Child's online activity and use of the Service.
- The Niantic Kids Parent Portal is operated on Niantic's behalf by Kids Web Services (KWS), of 40 Long Acre, London WC2E 9LG, United Kingdom, https://www.kidswebservices.com. You may contact KWS directly at privacy@kws.com or +44 203 668 6677 for any questions related to their handling of user information, especially parent information. KWS is certified by the kidSAFE Seal Program, an FTC-Approved COPPA Safe Harbor Program. KWS is also a valid licensee, and participating member, of the Entertainment Software Rating Board's Privacy Certified Program ("ESRB Privacy Certified").
- Parents who wish to consent to their Child accessing participating Services through Niantic Kids must first create a Niantic Kids account so they can manage the privacy settings of their Child's account. Parents will then be required to verify their identity through the Niantic Kids Parent Portal operated by KWS. In order to perform that verification, KWS requires certain Personal Dataabout parents. Any such information is collected by KWS as a Third-Party Service in accordance with their own Privacy Policy, which can be found at https://www.kidswebservices.com/privacy-policy .
- Once verified, a parent can consent to their child accessing the Service. For user account creation, Niantic will collect the in-game username the Child chooses to use on our Services, internal account IDs that we assign to the Child's account, and, with the parent's permission, the Child's personal email address (if available). We need that information to authenticate the Child's

accesses and uses the Service, Niantic will also collect and use the Child's device location and other Personal Data listed in this Privacy Policy for the purpose of operating and providing the Service to the Child, as described in this Privacy Policy. If we need to collect additional information for other purposes we will first seek your permission.

External Single Sign On Services

- As described in the Terms of Service, Parent of each Child may register with TPCI through a PTC account before their Child can access and use the game. The Parent will have to provide to TPCI certain Personal Data about the Child in accordance with the TPCI privacy policy. Of that, Niantic will only collect from TPCI the Child's personal email address, and the Child's date of birth to understand when the Child will grow out of the age limits listed above. For U.S. residents, after a Parent has registered a PTC account, TPCI will verify the Parent's identity by asking for the sum of the first and last digits of the Parent's social security number and the Parent's name, date of birth, and street address. TPCI will not share that information with us. After TPCI verifies the Parent's identity, it will ask the Parent to consent to the Child accessing Pokémon GO. If a Parent does not consent to a Child's access to and use of Pokémon GO or does not verify their identity through the consent process, Niantic will bar that Child's registration on Pokémon GO and prevent the Child's access to and use of the game.
- Parents may also create a Nintendo account on behalf of a Child for participating Services. To do this Parents will need to provide certain Personal Data about the Child to Nintendo in accordance with the Nintendo Privacy Policy. Of that, Niantic will only receive a unique User ID provided by Nintendo.

Parents have the right to review their Child's Personal Data; to have their Child's Personal Data deleted; and to refuse further collection, use, and/or disclosure of their Child's Personal Data by notifying us. As a parent, you understand that Niantic has a legitimate interest in providing your Child's Personal Data collected via the Services to external providers for the sole purpose of administering or providing the Services, as described in Paragraph 3 of this Privacy Policy. For more information on Niantic Kids, visit our support website here. For more information on authorized third-party providers, please visit the provider's website.

If we learn that we have collected Personal Data of a Child, and we do not have parental consent, we will take steps to delete such information from our files as soon as possible.

If you have questions about our privacy practices for Children, please contact us at privacy@nianticlabs.com or write to us at the Niantic address listed above in paragraph 1.

9. Changes to this Privacy Policy

time to time. You will be given reasonable notice of any material change.

10. Third Parties

In using our Services you may access links to websites and services that are owned or operated by third parties (each, a "**Third-Party Service**"). Any information that you provide on or to a Third-Party Service or that is collected by a Third-Party Service is provided directly to the owner or operator of the Third-Party Service and is subject to the owner's or operator's privacy policy. We're not responsible for the content, privacy, or security practices and policies of any Third-Party Service. To protect your information we recommend that you carefully review the privacy policies of all Third-Party Services that you access.

11. Disclosures Specific to Residents of Certain U.S. States

Certain U.S. states, including but not limited to California, Colorado, Connecticut, Oregon, Texas, and Montana, have enacted privacy laws that grant their residents certain rights and require certain disclosures ("State Privacy Laws"). If you are a resident of one of these states, this section applies to you.

Your Rights

You have the right to request the categories and specific pieces of Personal Data we have collected about you and to request the deletion or correction of your Personal Data. You may exercise your rights set forth in Section 7 ("Your rights and choices"). You also have the right to opt out of any "sales" of your personal information. Because Niantic does not sell Personal Data as that term is defined by the State Privacy Laws, Niantic does not offer this opt out. You may also have the right to appeal if we deny your request to exercise your privacy rights, which you may do by contacting us at privacy@nianticlabs.com. If you have concerns about the result of an appeal, you may contact the attorney general in the state where you reside.

Disclosures Specific to California Residents

California law requires that we make certain disclosures about your data. The following disclosures are made pursuant to the California Consumer Privacy Act of 2018 as amended by the California Privacy Rights Act of 2020 ("CCPA").

Collection and Use of Personal Data

In the preceding 12 months, we have collected the following categories of Personal Data: identifiers, commercial information, Internet or other electronic network activity information, geolocation data, and visual information. To learn more about

Sale or Sharing of Personal Data

We do not sell or share your Personal Data as those terms are defined under the CCPA. Niantic has no actual knowledge of selling or sharing the Personal Dataof minors under 16 years of age.

Disclosure of Personal Data for a Business Purpose

In the preceding 12 months, we have disclosed for a business purpose the following categories of Personal Data: identifiers, commercial information, Internet or other electronic network activity information, geolocation data, and visual information. To learn more about the disclosure of your Personal Data, please see Section 3 ("With whom we share Personal Data").

Sensitive Data

We do not sell or share the Personal Data of California residents as those terms are defined by the CCPA, nor do we collect or process sensitive Personal Data for the purpose of inferring characteristics about you. We also do not use sensitive Personal Data for purposes other than those specified in Section 7027(m) of the California Privacy Rights Act regulations promulgated by the California Privacy Protection Agency. Therefore, we do not offer you the option to opt out or to limit the use of your sensitive Personal Data.

Authorized Agents

If you authorize another person to submit a request to know, correct, or delete on your behalf, we may ask you to verify your identity or to confirm that you authorized another person to make such request on your behalf. Separately, such other person may have to submit proof that they are authorized to make a request on your behalf.

materials that are properties of their respective owners. More info
