This is the most satisfying classic music app with many features I've ever seen. I really really like it. If you add thoose feature in next update then this app will be allll in onne app for music.

1) Widget transparency option / Glass widget.
2) Show scrollable lyrics above song album.
3) Headphone button controll.

please consider thoose in next update. please. This app will be all in one. I'm using this app for long time. I really like it. 😊

WOW its like somethin outta the X-FILES!!!

Ok really though this Music app and tubemate make an awesome team tubemate let's me download ANYTHING of of YouTube and then gets run through a video to audio mp3 track and bam you got uhhhhhhh.....I think as of rn I have 35 or 40 songs cause I found and downloaded albums itz dope yo again incase you have not heard of it just open your browser and type tubemate.com and because it's an unknown app (which by the way is only for android users) but it's gonna ask you to go to your settings and turn off the block unknown apps system and make sure that you get the latest version its going to have alot of choices but the newest version of the app is marked as such I've had it on everyone of my phones and never had issues so don't worry now go get the app and download until your hearts content ok PEACE

The privacy policy I'm ok with. I've had this app for quite a while. What I am NOT OK WITH:
1. I can NO LONGER DOWNLOAD songs to this app and I don't know why. Do I need a new downloader? Is there a compatible app that I need to purchase? I can only follow the rules that I KNOW ABOUT!!
2. For the 2nd time in LESS THAN A MONTH EVERY ONE OF MY PLAYLISTS have disappeared!!! The categories are still there but the playlists themselves are empty. Once is a fluke but twice is intentional!!! This SAME COMMENT was made twice in AUGUST OF 2018 with NO NOTICABLE RESPONSE. Is there a fee for playlists or does it state SOMEWHERE that playlists REMAIN intact for a specified time period? Again, I can only follow the rules that I am aware exist!!

Now what can be done to SATISFY THIS VERY UNHAPPY CUSTOMER????
