C. Categ s purpose sing

C.1. Wher

TeamViewer ble to operate our content, as well as set ce rgeting. We do this since we want to ensure that when you visit any parts of our website, your journey will be user-friendly, and especially that you do not encounter technical problems and malfunctions. Also, we would like to make sure we provide you with the most relevant content on our website, which may require that we consider certain personal data such as your browser's language settings or the country from where you visit our services. In general, when you visit the TeamViewer website, we may collect IP address, date and time of the request, time zone, content of the request, data volume, browser information, your country of origin, as well as operating system as transmitted by your server to our servers.

The legal basis for processing this personal data is our legitimate interest, i.e., Art. 6 para. 1 lit. f) GDPR, or in some cases, your consent, i.e., Art. 6 para. 1 lit a),

analytics and (re-)marketing activities as well as our use of Cookies, please refer to our Cookie Notice.

C.2. When you interact with us

When you contact us (e.g., through an online contact form, through social media, email, chat functionality on our website or via phone), we will collect and process any personal information that you submit, such as your first name, last name, email-address, country, job title, phone number, company information (including company size), subject, description of your query etc. The collectio lers, which e.g., help us t rganize webinars (se tion for contacting y tising materials, de r the processing.

Depending o based on your consent ract or to follow our leg h we are subject to.

In certain cas formation in the course of ether with the informati f the Software, res a user recently star n on your use of the product during the trial). TeamViewer conducts these analyses to decide on whether, when, and how to inform or get in touch with its customers and users. In this context, the aim is to convey relevant information about our products also in the most suitable manner, which may include in-product messages, email communications or contact by phone.

TeamViewer may also use the gathered information in order to prioritize the workload internally and to set up the processes more efficiently. Also, the analyses will assist in predicting as well as retrospectively evaluating the effectiveness of marketing and sales efforts, although such analysis and reporting is mostly done on an aggregated level.
