Privacy Policy

Privacy Policy

English (U.S.)

Effective date: March 3, 2023.

Wildlife Studios is a mobile gaming company specializing in online, free-to-play games.

We know that privacy is important to you, and also that not everyone has time to read a lengthy privacy policy. So, in addition to the formal legal disclosures, we've added clear and concise summaries to each section to help you better understand how we collect, use, process, and share your personal information, and to help you understand and exercise your privacy rights.

If you have any questions or concerns, you can contact Wildlife Studios at privacy@wildlifestudios.com.

THE BOTTOM LINE:

• We're in the business of making great games. In addition to the information you give us directly, such as your username (and email address if you reach out to support), we also collect information about your device and how you play our games to make them better. Although we do have third-party ads in some of our games, you have control over what types of information our advertising partners can access.

• Some of our games have social features, but we only use this social data to operate our service. We may need to look at the things you post, for instance, to enforce our Terms of Service or comply with our legal obligations. But we don't use your chat history for advertising purposes.

1. SCOPE AND UPDATES TO THIS PRIVACY POLICY

This policy covers your player data, wherever we may collect it. You should only use our services if you are OK with this policy, which we do update from time to time.

This Privacy Policy applies to personal information processed by Wildlife Studios (collectively "Wildlife Studios," "we," "us," or "our"), including on our websites, mobile applications ("apps"), and other online or offline offerings. To make this Privacy Policy easier to read, our websites, apps, and other offerings are collectively referred to here as the "Services."

Changes to our Privacy Policy. We may revise this Privacy Policy from time to time in our sole discretion. If there are any material changes to this Privacy Policy, we will notify you as required by applicable law. You understand and agree that if you continue to use our Services after we make changes, it will be deemed to have accepted the updated Privacy Policy.

2. PERSONAL INFORMATION WE COLLECT

Like most online mobile game developers, our apps collect information about you to make our games better. This includes the nickname you choose to show other players, as well as information we may collect automatically from your device, or from third-party services (like Facebook, Apple, or Google) you choose to connect with.

The types of personal information we collect depend on how you interact with us, our Services, and what the law may require. Generally speaking, we collect personal information that you provide to us, information we obtain automatically when you use our Services, and information from other sources such as third-party services and organizations. See below for more details on each type of information.

A. Personal Information You Provide to Us Directly

We do our best to only ask you for the information we need to run our games well. For example, if you want to engage with other players using voice chat for some games, we need to access your microphone. We may collect other information from you in other situations as well, like when you attend in-person events or sign up for optional promotions or programs (such as content partner programs).

We may collect personal information that you provide to us.

Information Required to Play our Games. We may collect personal information when you first play one of our games, such as the nickname you choose to display to other players. Some of our games may also ask you your age.

Content Creator program: some of our games have "partner programs" or "content creator" programs where players can get exclusive in-game benefits and perks. To apply to be a partner, we collect your full name, channel name on YouTube and/or Twitch, primary and secondary channel links, email address, subscriber/follower count, player ID, age, and optional country/region information and Discord ID. Please review our Content Partner Privacy Policy for more details.

Interactive Features. We and others who use our Services may collect personal information that you submit or make available through our interactive features (e.g., messaging and chat features, including chat audio, commenting functionalities, forums, blogs, and social media pages). Some games may request access to your microphone and/or photo library to enable certain optional social features. For example, some games include voice chat features, while other games may allow you to upload photos from your device to modify and share through our games.

Any information you provide using the public sharing features of the Services will be considered "public," unless otherwise required by applicable law, and is not subject to the privacy protections referenced herein. Please exercise caution before revealing any information that may identify you in the real world to other players.

Your Communications with Us. We may collect personal information, such as your name, email address, phone number, or mailing address when you request information about our Services, register for our newsletter or loyalty/VIP program, interact with us at an in-person event such as a competition, conference, or trade show, request customer or technical support, or otherwise communicate with us.

Your Purchases. We may collect personal information and details associated with your purchases using our Services, such as payment information. Any payments made via our Services are processed by third-party platforms and processors such as Apple and Google: we do not collect or store any payment card information entered through our Services, but we may receive information associated with your purchases (e.g., your transaction history).

Surveys. We may contact you to participate in surveys. If you decide to participate, we may collect personal information from you in connection with the survey.

Sweepstakes or Contests. We may collect and share personal information you provide for any sweepstakes or contests that we offer, such as your address and shipping details if you win a prize. In some jurisdictions, we are required to publicly share information (such as full names) of sweepstakes and contest winners.

8. CHILDREN'S INFORMATION

Although our apps are designed for a general audience, we take additional precautions in our games if we determine that they are targeted to children, such as including a neutral age-gate and disabling some features for kids.

Protecting children's privacy online is very important to us. Although our Services are designed for a general audience, we take additional steps to limit access to Services that appeal to children based on the player's age, such as by disabling social media plug-ins, chat features, and certain types of notification alerts. We also limit personal information collection and sharing to only what is necessary to support the internal operations of our Services.

If you are a parent or guardian and believe your child has uploaded personal information to our site without your consent, or wish to review information collected from your child, or have that information modified or deleted, you may contact us as described in "Contact Us" below. If we become aware that a child has provided us with personal information in violation of applicable law, we will delete any personal information we have collected, unless we have a legal obligation to keep it, and terminate the child's account and/or revert them to the underage experience, if applicable.

9. OTHER PROVISIONS

Third-Party Websites/Applications. The Services may contain links to other websites/applications and other websites/applications may reference or link to our Services. These third-party services are not controlled by us. We encourage our players to read the privacy policies of each website and application with which they interact. We do not endorse, screen, or approve, and are not responsible for, the privacy practices or content of such other websites or applications. Providing personal information to third-party websites or applications is at your own risk.
