SmartLife Privacy Policy

Effective date: August 28th, 2025

Volcano Technology Limited and its Affiliates (as hereinafter defined) (“we”, “us”, “our”, or “Volcano”) are committed to protecting your privacy. This SmartLife Privacy Policy (this “Policy”) describes our practices in connection with information privacy on Personal Data (as hereinafter defined) we process through your use of our products and services(collectively, the “Services”), for instance the SmartLife Mobile Application (the “App”) and its connected Smart Devices.

Before you start using the Services, please carefully read this Policy which details our purposes for collecting and processing your Personal Data, as well as how we use, store, share and transfer your Personal Data. In this Policy you will also find ways to exercise your rights of access, update, delete or protect your Personal Data.

If you are a customer located in the European Economic Area (“EEA”) or the United Kingdom (“UK”), the following corporate affiliate of Volcano may also process your personal data, including for purpose of provision of our products, services and support:

Tuya GmbH, in its role as the Data Controller, with its registered address at: Peter-Müller-Straße 16/16a, 40468 Düsseldorf, Germany.

If you have any question regarding this Policy, please do not hesitate to contact us via:

Volcano Customer Service Department: 1-844-672-5646 or dpo@volcano-smart.com

Volcano Privacy Office: dpo@volcano-smart.com

You are not obliged to provide to us your Personal Data (as defined below). However, we may be unable to provide you with certain products and/or Services if you decline to provide such data.

Please note: our services are not intended to be used by minors under the age of 16 (or such other age provided by applicable law in your country/region of residence) , and we request that these individuals do not provide any Personal Data to us. If we become aware that we have collected Personal Data from any child without permission from that child’s parent or legal guardian, we will take steps to remove that information.**In case we have accidentally collected and/or processed any Personal Data of a minor, the parent or legal guardians of the minor may contact us at any time and we will return such Personal Data and immediately delete them on our end.**

Definitions

In this Policy:

Affiliate means any company, firm or legal entity that: (1) is directly or indirectly controlled by Volcano; or (2) directly or indirectly controls Volcano; or (3) jointly with Volcano, controls the same company; or (4) is, directly or indirectly, under common control of the same company with Volcano. Affiliates shall include, without limitation, Volcano's parent companies, subsidiaries, and such subsidiaries under common control of the same parent company as Volcano.

Personal Data means information generated, collected, recorded and/or stored, electronically or otherwise, that can be used to identify an individual or reflect the activity of an individual, either from that information alone, or from that information and other information we have access to about that individual.

Personal Sensitive Data includes personal biometric information, communication records and contents, health information, transaction information, and precise location information, etc., according to various data protection laws and regulations. When we collect Personal Sensitive Data from you, we will generate an explicit notification for your consent before we collection personal sensitive data about you.

Smart Devices refers to those computing devices produced or manufactured by hardware manufacturers, with human-machine interface and the ability to transmit data that connect wirelessly to a network, including: smart home appliances, smart wearable devices, smart air cleaning devices, etc.

What Personal Data Do We Collect?

In order to provide the Services to you, we will ask you to provide necessary Personal Data that is required to provide those Services. Please note that such Personal Data are necessary for carrying out relevant Services that you may require and you are obliged to provide such Personal Data in order to use our Services. If you do not provide your Personal Data, we may not be able to provide you with the Services.

In Try as guest mode:

When you experience the service using the "Try as guest" mode (without registering or logging in to an account), we will collect basic operating information related to the device to enable normal functioning of the function. This information includes:

- Device IP address, operating system type, device model, and network information related to smart device network configuration;
- if the smart device you use requires positioning service function, we will obtain location information after your authorization;
- this information is used to identify the connection status between the device and the service to complete device network configuration, control and display;
- after exiting the "Try as guest" mode, we will immediately delete all temporary data without retaining copies or backups.

1) Information You Voluntarily Provide to Us

In Login mode:

- Register account information: When you register an account with us, we will collect your account name and contact information, including your email address, phone number, user name and login credentials. During your interaction with our products, we will further collect nicknames, country codes, language preferences or time zone information in your account.
- User feedback: When you use our services and submit feedback and suggestions to us related to the services, we will collect your email address, mobile phone number and feedback content (added

pictures or videos), which will be used to help us deal with your application problems and smart device-related failures in a timely manner.

When you choose to authorize the use of a third-party account to log in, we will obtain your shared account information (name, email address, profile picture etc.) from the third party and bind it to your SmartLife account for quick login. We will use your personal information in accordance with the agreement with the third party and the terms of sharing personal information in the privacy policy published by the third party, subject to compliance with relevant laws and regulations.

Information based on additional functions:

In order to offer you with more convenient and higher-quality Services with optimized user experiences, we may collect and use certain information if you consent to use of additional functions in the App. Please note, if you do not provide such information, you may continue to use basic Services of the App and connected Smart Devices, but certain features based on these additional functions may not be available. These additional functions may include:

Additional functions based on location information:

- When you enable the location-based functions through permission settings on your mobile device, we will collect and process your location information to enable these functions, such as pairing with your Smart Devices. Also, we may collect information about your: a) **real-time and precise location**, for instance when you choose to use the automation scenarios for controlling your Smart Devices, or b) non-precise geo-location when you use certain Smart Devices or the Services, such as robot cleaner and weather service.
- Based on your consent, when you enable the geo-fence feature, your location information will be generated and shared with Google Maps services. Please note that Google has corresponding data protection measures, which you may refer to Google's Data Processing and Security Terms for more details. You may disable the collection and use of your location information by managing the device level settings, upon which we will cease to collect and use your location information.
- You may opt out of the use of your location information ("Me - Setting - Privacy Right Setting - Switch on/off Location Information").

Additional services based on camera:

- You may use the camera to scan the code by turning on the camera permission to pair with a Smart Device, take video, etc. Please be aware that even if you have agreed to enable the camera permission, we will only obtain information when you actively use the camera for scanning codes, video recording, etc.
- You may opt-out the using of camera permission: "Me - Setting - Privacy Right Setting - Switch on/off Camera".

Additional services for accessing and uploading pictures/videos based on photo albums (picture library/video library):

- You can use this function to upload your pictures/videos after turning on the album permissions, so as to provide proof for reporting equipment usage problems and upload pictures/videos on some special

equipment panels. When you use the photos and other functions, we will not recognize this information; but when you report a device usage problem, we may use the photos/pictures you upload to locate your problem.

- You may opt-out the using of photo album permission: "Me - Setting - Privacy Right Setting - Switch on/off Photo Album".

Additional services related to microphone-based service:

- After turning on the microphone permission, you can use the microphone to implement voice functions, including waking up voice/AI assistants, and some special panels (such as IPC voice intercom). In these functions, we will collect your voice information to identify your instruction needs and provide you with corresponding services. Please know that even if you have agreed to turn on the microphone permission, we will only obtain voice information through the microphone when you actively click the microphone icon in the App or record a video.
- You may opt-out the using of microphone permission: "Me - Setting - Privacy Right Setting - Switch on/off Microphone".

Additional services based on storage permission (Android):

- We apply for this permission from you to ensure the stable operation of the client. After you enable us to read/write your device storage, we will read or write pictures, files, videos and other necessary information from your device storage space to provide you with information release or in The function of recording crash log information locally.
- You may opt-out the using of storage permission: "Me - Setting - Privacy Right Setting - Switch on/off Storage".

Additional services based on Notification permission:

- The reason why we ask you for the permission is to send you notifications about using the products and services, especially if you have purchased security services and you require an alert or message so that you can capture the real-time status.
- You may opt-out the using of App notifications: "Me - Message Center - Setting - Switch on/off Notifications".

Additional services based on Alert Window permission：

- You may choose to bind a camera in the App and require the App to display the real-time image of the camera in a separate window.
- You may opt-out the using of alert window information: "Me - Setting - Privacy Right Setting - Switch on/off Alert Window".

Additional services based on Bluetooth permission:

- You can enable Bluetooth functions after turning on the permission, including controlling the Smart Devices, acquiring device status, and device network configuration. In these functions, we will communicate with terminal devices via Bluetooth. Please be aware that even if you have agreed to

enable the Bluetooth permission, we will only use Bluetooth for communication in these scenarios: display device status on the home page and device panel; perform device control on the home page and device panel; we will use it on the home page and the add device page, for discovering the devices via distribution network.

- You may opt-out the using of Bluetooth via "Me - Settings - Privacy Setting - turn off/on [Bluetooth(iOS) / Access to nearby devices permissions (Android)] ".

Additional services based on HomeKit permission (iOS):

- You can enable related functions after enabling HomeKit permissions, including discovering Smart Devices, enabling Smart Device network configuration, controlling Smart Devices, and checking device status. Among these functions, we will process data with the "Home“ App that comes with the iOS system through HomeKit. Please be aware that even if you have agreed to enable the HomeKit permission, we will only use it in these scenarios: on the home page, to discover HomeKit devices, HomeKit device network configuration; in "Settings - HomeKit" for discovering HomeKit devices, HomeKit device network configuration.
- To manage [HomeKit] permissions, go to the iPhone system [Settings] - [Privacy & Security] - [Home Accessories], then select the current app to toggle permissions on or off.

Additional services based on HealthKit (iOS):

- You can proactively enable related functions after enabling HealthKit permission, including statistics on weight, height, running, and swimming. In these functions, we will exchange data with the health-related functionalities that comes with the iOS system through HealthKit. Please be aware that even if you have agreed to enable HealthKit permission, we will only use them in these scenarios: when you use the health-related Smart Device, such as body fat scales, bracelets, watch and consent to use the HealthKit, the data reported by the Smart Device will be transferred to HealthKit.
- To manage [HealthKit] permissions, go to the iPhone system [Settings] - [Privacy & Security] - [Health], then select the current app to toggle permissions on or off.

Please note that if you turn on any permission, you authorize us to collect and use relevant personal information to provide you with corresponding Services. Once you turn off any permission, we will take it as a cancellation of the authorization, and we will no longer continue to collect Personal Data based on the corresponding permissions, and the related functions may be terminated. However, your decision to turn off the permission will not affect previous collection and use of information based on your authorization.

2) Information We Collect Automatically

- **Mobile device information**: When you interact with our products, in order to ensure your normal use of our services, maintain the normal operation of our services, improve and optimize our service experience, and protect your account security, we will automatically collect mobile device information , including mobile device model, login IP address, wireless connection information, operating system type and version, application version number, push notification identifier, log files and mobile network information. At the same time, we will collect your software version number. To accurately identify the source of a service failure, we will collect your ID-related information (including account ID, device ID,

order ID, home ID, and scene ID). To ensure the security of the operating environment or as needed to provide services, we collect information about the mobile applications and other software you use, as well as the application's application installation list (for the purpose of application performance monitoring).

- **Service log information**: When you use our application, in order to provide you with a better user experience and improve and optimize our services, system and exception logs will be uploaded for analysis, including your IP address, usage habits, The version of the operating system, the date or time of access, and usage information allow us to accurately identify problems and help you solve problems when using the service.

Please note that one cannot identify a specific individual by using device information or log information alone. However, as these types of information, combined with other information, may be used to identify a specific individual, such information will be treated as Personal Data. Unless we have obtained your consent or unless otherwise provided by data protection laws and regulations, we will aggregate or desensitize such information. Additionally, please refer to section titled “Data Retention” of this Policy for data retention periods of such Personal Data.

3) Smart Devices Related Information:

When you use a Smart Device, we will collect some basic and pre-embedded information of the Smart Device and the information generated during your use of the Smart Device.

- **Basic Information of Smart Devices**: When you connect your Smart Devices with the Services, we may collect basic information about your Smart Devices such as device name, device ID, online status, activation time, firmware version, and upgrade information.
- **Information collected during the process of connecting smart devices**: When using SmartLife APP and services, in order to facilitate device identification/activation/control, perform data statistics and analysis, and ensure the safety and quality of network access and service operations, we will use the products according to your use When performing specific operations, we will receive and record information related to the device you are using based on the type of smart device you need to connect to. We will collect the following information:

  Wi-Fi information (SSID, BSSID, Wi-Fi Mac address, Wi-Fi password), device Mac address, device ID, device IP, device Bluetooth Mac address.
- **Information Reported by Smart Devices**: Depending on the different Smart Devices you elect to connect with the Services, we may collect different information reported by your Smart Devices. ***For example, a smart light may report brightness and color temperature, while a dehumidifier may report temperature and humidity. You can view device data within the App interface or export it via the privacy settings page.*** The following information reported by the Smart Device only applies when you use them:

When you voluntarily use a smart camera (IPC service) and connect to the SmartLife platform: When you connect a doorbell camera, a door lock, or a smart surveillance camera through SmartLife service to monitor the security of your residence, during the process, the device may capture the images if it recognizes someone or an object is moving around, and then provide you a playback of related surveillance content. At this time, we will automatically encrypt the captured image and save it locally on

the device. When you actively choose and successfully purchase cloud storage service, the smart camera will upload the pictures or video files you have taken to the cloud for further storage so that you can review them in the App. We will keep your information based on the cloud storage service you purchase. When you choose to delete the picture in advance in the SmartLife App, you can delete it in the message center and if you need to delete a video on the App, the cloud will delete immediately the video files you stored in the cloud service.**Please note that when you choose to turn off the motion detection function, the smart camera will not actively record the captured images, which will affect your original intention of using the smart camera.**

For example: when you voluntarily use a certain health-related smart device and connect to the SmartLife platform: If you choose one or more smart devices, the corresponding information will be recorded:

1. Smart body fat scale or fitness tracker: height, weight, body fat mass (BFM), body mass index (BMI) and skeletal muscle mass (SMM), body fat rate, muscle mass, body fat index, obesity level, ideal Weight, weight control, visceral fat index, net weight, body water, bone mass, protein rate, BMR, metabolic age, body score, body shape, subcutaneous fat rate, subcutaneous fat mass, heart rate;
2. Bracelets and similar smart devices: heart rate, steps, calories, mileage, heart rate, sleep records, training records, body temperature, blood oxygen, systolic blood pressure, diastolic blood pressure, and pressure.
3. Smart fitness equipment represented by smart skipping ropes: start time, jumping mode, number of rope skipping, exercise duration, calories burned, maximum number of jumps to maintain, number of rope skipping, average speed, maximum speed, and heart rate during exercise.

Data generated by health-related smart devices (such as weight, heart rate, blood pressure, etc.) may fall under the scope of "special category of personal data" defined in Article 9 of the GDPR. We only collect and process this information with your explicit consent and it is used solely to provide you with health-related functionalities, such as record keeping, health monitoring and statistical analysis.

In particular, when you proactively consent to and enable the sharing function connected with a third-party health platform, such as Apple Health, Google Fit, and Fitbit, your health-related data will be shared with the third party. In this instance, such locally stored data will be uploaded from your devices to the third-party health platform. You may withdraw your consent to sharing your data with such third-party health platforms at any time in the App, upon which the data sharing is immediately terminated.

The purpose of sharing information is to measure and analyze health indicators related to you. Otherwise, we will not disclose such health information to any other third party or use health-related information for other purposes not defined in this policy. You can disconnect the authorized connection between the SmartLife App and the third-party health platform at any time by managing your health settings in the health management center on your mobile device. When we add new third-party sharing channels, we will never share your information if you do not use that channel.

Purposes and Legal Basis for Processing Personal Data

The purpose for which we may process information about you are as follows:

- **Provide You with Our Services:** We process your account data, mobile device information, usage data, location information, and Smart Device related information to provide you with the Services that

you have requested. The legal basis for this processing is to perform our contract with you according to our User Agreement.

- **Safety of Our Services:** We process your mobile device information, usage data, location information and Smart Device related information to ensure safety of accounts, activity, products and the Services. ***The legal basis for this processing is to perform our contract with you according to our User Agreement.***
- **Non-marketing Communication:** We process your Personal Data to send you important information regarding the Services, changes to our terms, conditions, and policies and/or other administrative information. At the same time, we will also send you notifications related to the services you have purchased, such as alert services. You can check the “App Notification” in the App ("Me > Message Center > Setting > Notification Setting”) to manage these communications. When you decide not to enable the Notifications function, we will no longer process your information for such purpose. The legal basis for this processing is to perform our contract with you according to our User Agreement.
- **Data Analysis:** In order to analyze the usage of the products we provide and improve your user experience, we may analyze the data you provide us, a) we need to check your problems when you encounter any malfunctions during the usage of the product, and b) analyze data about how you interface with the product or under particular scenarios so that you can better enjoy the convenience brought by our Services. Your consent is required prior to processing under such circumstances; if you do not agree to data analysis of your data, you can enter the privacy settings of SmartLife App (“My > Settings > Privacy Settings > Data Analysis”) to opt-out your selection. The legal basis for such processing is based on your consent.
- **Marketing Communication and Personalization:** We may process your account data, usage data, device information to personalize product design and to provide you with services tailored for you, such as recommending and displaying information and advertisements regarding products suited to you, and to invite you to participate in surveys relating to your use of the Services. The legal basis for this processing is your consent. You may give consent to such processing by proactively electing to turn on the Personalization option in the App, and we will not process your Personal Data for such purpose unless your consent has been given to us. If you do not wish for us to continue to process your Personal Data for personalization, you may opt out when you enter the App, or by changing your preferences in “Privacy Settings” (“Me> Settings > Privacy Settings > Personalization”) in the App. The legal basis for this processing is your consent. **Please note:** as of the date of latest update of this Policy, we do not use automated decision-making in our Services to process your Personal Data.
- **Legal Compliance**. We disclose information if we are legally required to do so, or if we have a good faith belief that such use is reasonably necessary to:
  - comply with a legal obligation, process or request;
  - enforce our User Agreement and other agreements, policies, and standards, including investigation of any potential violation thereof;
  - protect the rights, property or safety of us, our users, a third party or the public as required or permitted by law; or
  - detect, prevent or otherwise address security, fraud or technical issues.

If there is any change in the purposes for processing your Personal Data, we will inform such change to you with a prominent notice on our website of such changes of purposes, and choices you may have regarding your Personal Data.

Who do We Share Personal Data with?

At Volcano, we only share Personal Data in ways that we tell you about. Without your consent, we will not disclose your Personal Data to third-party companies, organizations, or individuals except in the following cases:

- To our third-party service providers who perform certain business-related functions for us, such as website hosting, data analysis, payment and credit card processing, infrastructure provision, IT services, customer support service, e-mail delivery services***, notification pushing services*** and other similar services to enable them to provide services to us.
- ***To providers of Smart Devices that may provide,directly or indirectly, Smart Devices to you, and/or networks and systems through which you access and use our websites and services.***
- To subsidiaries or affiliates within our corporate family for purpose of regular business activities based on our instructions and in compliance with applicable law, this Policy and other appropriate confidentiality and security measures.
- To an affiliate or other third party in the event of any reorganization, merger, sale, joint venture, assignment, transfer or other disposition of all or any portion of our business, assets or stock (including without limitation in connection with any bankruptcy or similar proceedings). In such an event, you will be notified via email and/or a prominent notice on our website of any change in ownership, and choices you may have regarding your Personal Data.
- As we believe in good faith that access to, or use, preservation, or disclosure of the information is reasonably necessary or appropriate to:
  - (a)Comply with applicable law, regulation, legal process, or lawful governmental request;
  - (b)Enforce our User Agreement and other agreements, policies, and standards, including investigation of any potential violation thereof;
  - (c) Protect our operation and business systems;
  - (d)Protect the rights, property or safety of us, our users, a third party or the public as required or permitted by law; or
  - (e)Perform risk management, screening and checks for unlawful, fraudulent, deceptive or malicious activities.

Except for the third parties mentioned above, we only disclose your Personal Data to other third parties with your individual consent, such as Apple Health, Google Fit, and Fitbit. We will not use these information for other purposes.

Volcano does not sell or share your personal information as defined under the California Consumer Privacy Act (CCPA) and California Privacy Rights Act (CPRA), including for cross-context behavioral advertising.

When you use services provided by third parties, we will make sure that sharing of your Personal Data with such third parties are based on their obtaining your authorization and/or consent, or otherwise in conformity with applicable laws and regulations. We will also make our efforts to manage sharing of any information with these third parties in order to preserve the security of your relevant personal information. For details on such third parties information sharing, please see "List of Third-party Information Sharing". We encourage you to carefully read the privacy policy of any third party with which you interact.

In addition, to ensure operations of the App or to enable certain independent functions, we may embed third-party SDKs in the App. Please note: the types of Personal Data that these third-party SDKs may process are subject to change at any time due to upgrade, updates or policy changes, and you should rely on relevant latest information on the official websites or otherwise made available by such third parties. For details of these SDKs, please see "List of Third-party SDK Services".

Data Transfer

Volcano operates globally, and Personal Data may be transferred, stored and processed outside of the country or region where it was initially collected. Also, the applicable laws in the countries and regions where we operate may differ from the laws applicable to your country of residence (please kindly check Global Data Center accordingly). Under the Personal Data protection framework and in order to facilitate our operation, we may transfer, store and process your Personal Data in jurisdictions other than where you live.

We protect Personal Data in accordance with this Policy wherever it is processed and take appropriate contractual or other steps to protect it under applicable laws.

The European Commission has determined that certain countries outside of the European Economic Area (EEA), the UK or Switzerland can provide adequate protection of Personal Data. Where Personal Data of users in the EEA, Switzerland, or the UK is being transferred to a recipient located in a country outside the EEA, Switzerland, or the UK which has not been recognized as having an adequate level of data protection, we ensure that the transfer is governed by the European Commission's standard contractual clauses. You can review the agreement on the basis of approved EU standard contractual clauses per GDPR Art. 46. For more information, see here.

If you would like further details on the safeguards we have in place under the data transfer, such as a copy of the Standard Contractual Clauses concluded between us and our affiliate recipient that Personal Data may be transferred to, you can contact us directly as described in this Privacy Policy.

Also, when we transfer data to our processors, the data may be transferred outside the EEA, For details on such third parties information sharing, please see "List of Third-party Information Sharing".

Data Subject Rights

We respect your rights and control over your Personal Data. You may exercise any of the following rights:

- Via the "Me > Settings > Account and Security" or via "Me > FAQ&Feedback" in the Services;
- By emailing us at dpo@volcano-smart.com;
- Exercise your rights through the data subject rights response page on the official website(SmartLife of ficial website);

- If you downloaded our APP from Google Play, you can exercise your right to deletion through the online link on Google Play;

Response Fee&Timeframe: You do not have to pay any fee for executing your personal rights. Subject to applicable data protection laws in relevant jurisdictions, your request of privacy rights will be fulfilled within 15 business days, or within 30 calendar days due to different response requirement.

If you decide to email us, in your request, please make clear what information you would like to have changed, whether you would like to have your Personal Data deleted from our database or otherwise let us know what limitations you would like to put on our use of your Personal Data. Please note that we may ask you to verify your identity before taking further action on your request, for security purposes.

You may:

- **Request access to the Personal Data that we process about you**: "Me-Setting-Privacy Settings-Personal Data Export";
- **Request that we correct inaccurate or incomplete Personal Data about you**: 1) Modify your account number (email address or phone number): "Me-Setting-Account and Security-Change your Account"; 2) Modify the nickname and/or time zone: "Me-Personal Information";
- **Request deletion of Personal Data about you**: "Me-Setting-Account and Security-Delete Account", when you confirm the deletion of your account, your Personal Data will be deleted accordingly.
- **Request restrictions, temporarily or permanently, on our processing of some or all Personal Data about you**: Please send over your request through "Me - Help Center", or send over the email request to dpo@volcano-smart.com;
- **Request transfer of Personal Data to you or a third party where we process the data based on your consent or a contract with you, and where our processing is automated**: Please send over your request through "Me - Help Center", or send over the email request to dpo@volcano-smart.com;
- **Right of Data Portability**: Request to have Personal Data provided to you so that you can provide or “port” them to another provider, by sending the request via email to dpo@volcano-smart.com.
- Request of Withdrawal of Consent:You have the right to withdraw or object to our use and processing of your Personal Data, where such use and processing is based on your consent or our legitimate interests. Please kindly check the following instructions detailed in the section below for details:
  - 1)For privacy permissions acquired through device system settings, your consent can be withdrawn by changing device permissions, including location, camera, photo album (picture library/video library), microphone, Bluetooth settings, notification settings and other related functions;
  - 2)You may opt-out the non-marketing communication through “Me > Message Center > Notification Settings” to manage your selection;
  - 3)You may opt-out the data analysis features through “Me > Settings > Privacy Settings”;
  - 4)You may opt-out the Personalization feature through “Me > Settings > Privacy Settings > Personalization”;
  - 5)Unbind the Smart Device through the App, and the information related to the Smart Device will not be collected;

- 6)By using product with the Try Now mode, and not enable certain location setting for particular smart scene, we will not collect any Personal Data about you;
- 7)If you previously agreed to associate SmartLife account with a third-party service, such as a health platform, please unbind it on the third-party platform.

When you withdraw your consent or authorization, we may not be able to continue to provide you with certain products or services correspondingly. However, your withdrawal of your consent or authorization will not affect the processing of personal information based on your consent before the withdrawal.

- **Deletion of the Account**: You can find the Delete function through “Me > Settings > Account and Security > Delete Account” (Deactivate Account).
- **Right to Object:** the right, at any time, to object to us processing your personal data on grounds relating to your particular situation;the right to object to your personal data being processed for direct marketing purposes.

If you have more questions, please do not hesitate to contact dpo@volcano-smart.com.

Security Measures

We use commercially reasonable physical, administrative, and technical safeguards to preserve the integrity and security of your Personal Data. SmartLife provides various security strategies to effectively ensure data security of user and device.

- As for device access, SmartLife proprietary algorithms are employed to ensure data isolation, access authentication, applying for authorization.
- As for data communication, communication using security algorithms and transmission encryption protocols and commercial level information encryption transmission based on dynamic keys are supported.
- As for data processing, strict data filtering and validation and complete data audit are applied. As for data storage, all confidential information of users will be safely encrypted for storage. If you have reason to believe that your interaction with us is no longer secure (for example, if you feel that the security of any account you might have with us has been compromised), you could immediately notify us of the problem by emailing dpo@volcano-smart.com.
- As for data storage, all confidential information of users will be securely encrypted for storage.

In addition to the above-mentioned technical security guarantees, Volcano has also formulated a series of security guarantees at the institutional and management control levels, including assigning positions and responsibilities, holding security and privacy protection training courses, strengthening employee data protection awareness, controlling access rights and other measures. To prevent data loss, illegal use, unauthorized access or leakage, tampering or damage.If you believe for any reason that your interaction with us is no longer secure (for example, if you believe the security of your SmartLife account has been compromised), please inform us immediately by sending an email to dpo@volcano-smart.com as described below.If a security incident occurs that affects the security of your personal information, we will notify you as soon as possible through your reserved email address, phone number, message center push, etc., and inform you of suggestions and other information to reduce or prevent related risks. . When

necessary, we will take corresponding remedial measures in a timely manner in accordance with the internal security incident emergency plan, and report to the relevant competent authorities in accordance with regulations.We have obtained Enterprise Privacy Certification (EPC). For more information about EPC, please click here) to view.

Data Retention

We process your Personal Data for the minimum period necessary for the purposes set out in this Policy, unless there is a specific legal requirement for us to keep the data for a longer retention period. We determine the appropriate retention period based on the amount, nature, and sensitivity of your Personal Data, and after the retention period ends, we will destroy your Personal Data.

In detail, the following factors are considered when determining our retention periods of Personal Data:

- The period of time during which an ongoing relationship with you is retained and Smart Devices and/or our Services are provided to you (also see the **User Agreement**. For instance, your Personal Data is retained for as long as your account with us remains valid or you keep using the Smart Devices and/or our Services;
- Whether we have a legal obligation to keep your Personal Data; or
- Whether retention is advisable in light of our legal position (such as in regard to the enforcement of our agreements, the resolution of disputes, and applicable statutes of limitations, litigation, or regulatory investigation).

The following chart shows the details of different scenarios:

DATA TYPE	RETENTION PERIOD
User account information	7 days after you delete your account
Device operation log	Up to 7 days
Feedback record	Up to 12 months
Device management data	Until you unbind your device or delete you account

If the legal basis is your consent, we will delete your data immediately after you withdraw your consent.

If the legal basis is our legitimate interest, we will delete your data as quickly as possible if there are no overriding legitimate grounds for processing, but in any case in the event of direct advertising. Personal Data will no longer be retained when you request to remove your Personal Data or withdraw your consent, and we will accordingly complete the task.

When we are unable to do so for technical reasons, we will ensure that appropriate measures are put in place to prevent any further such use of your Personal Data.

Dispute Resolution

If you have an unresolved privacy or data use concern that we have not addressed satisfactorily, please contact our U.S.-based third-party dispute resolution provider (free of charge) at https://feedback-form.truste.com/watchdog/request.

If you are in EU, you have the right to lodge a complaint with the relevant Data Protection Authority under Article 77 GDPR. The contact details of your competent authority are available at: Our Members | European Data Protection Board.

Children's Privacy

Protecting the privacy of young children is especially important to us. The Services are not directed to individuals under the age of sixteen (13) (or such other age provided by applicable law in your country/region of residence), and we request that these individuals do not provide any Personal Data to us. We do not knowingly collect Personal Data from any child unless we first obtain permission from that child's parent or legal guardian. If we become aware that we have collected Personal Data from any child without permission from that child's parent or legal guardian, we will take steps to remove that information.

Your California Privacy Rights

California Civil Code Section 1798.83 permits users of the Software that are California residents to request certain information regarding our disclosure of Personal Data to third parties for their direct marketing purposes. To make such a request, please contact us in accordance with the "Contact Us" section below. We do not disclose Personal Data to third parties for their direct marketing purposes without your consent. Visit our Statement on California Privacy Notice page for more information.

Changes to this Policy

We may update this Policy to reflect changes to our information practices, at least on an annual basis. If we make any material changes we will notify you by email (send to the e-mail address specified in your account) or by means of a notice in the mobile applications prior to the change becoming effective. We encourage you to periodically review this page for the latest information on our privacy practices.
