1. Full Access to Files –

We need this permission to offer our users a comprehensive and seamless experience. This permission allows us to provide advanced features, making it easy for you to organize and enjoy your media with ease.

With the All Files permission, the app can perform all file management functions (such as delete, rename, transfer media files), browse, read, manage, download, and view any format of video, audio, images, or any media files on the device without restricting the user to specific app folders. This permission allows the app to collect and view all media files on your device in one place.

Users can open and play any video or audio file stored on their devices without having to manually move the file to a specific folder or grant additional accesses. Users get several options to manage files within the app, such as:

- Delete unwanted media files.
- Rename the melodies.
- Move or copy files between folders.

Permissions

Our app requires the following minimum permissions needed to operate:

- **READ_MEDIA_VIDEO/READ_EXTERNAL_STORAGE (in older Android versions)** allows the app to view your local audio files so you can choose and edit ringtones.

- **WRITE_EXTERNAL_STORAGE/WRITE_SETTINGS** – Allows the app to save and adjust ringtones on your device.

- **READ_CONTACTS/WRITE_CONTACTS** – just to allow you to set or change the ringtones of your contacts.

- **We do not collect, store,** or **share** any **contact** information outside of your device.

- All changes apply locally to your device.
