Data Protection

1. Controlling agency

Controlling agency:

WetterOnline Meteorologische Dienstleistungen GmbH
Karl-Legien-Straße 194a
D-53117 Bonn
Germany

E-mail: info@weatherandradar.co.uk
Phone: +49 228 55937-998
Fax: +49 228 55937-80

2. Purpose

The WetterOnline Meteorological Services GmbH takes the protection of your personal data very seriously. We would therefore like to inform you whether and which of your data we collect, process and use. Our commitment to this is based on the Telecommunications Digital Services Data Protection Act (TDDDG) and the European General Data Protection Regulation (GDPR). The privacy policy for the use of our app (Weather & Radar app) is listed below.

3. Personal data

Personal data are any data that contain information about personal or factual circumstances of a specific or identifiable customer. This includes, for example, your name, home address, gender, date of birth, age, telephone number, email address, or IP address. This list is not exhaustive and is only intended to illustrate what can be considered personal data.

4. Which of your data do we collect, process or use?

4.1 Collection and use of location data

In our apps, you have the ability to retrieve weather information for your location. To do this, location services must be enabled on your mobile operating system. Once they are enabled and you launch one of the aforementioned apps for the first time, the app will ask you to allow access to your location information. When you confirm, the app is granted access to your location information. You can revoke the app's access to your location at any time in the settings of your mobile device. If you allow the app access to your location data, your mobile device will transmit your location within the cell you are in to us. If your mobile device has a GPS receiver, that location data will also be transmitted to us. The location data is rounded to 0.01°, so we do not gain knowledge of your exact location.

4.2 Paid version

The purchase of the respective Pro version allows you to use our apps free of ads. In the event of the purchase of a Pro version, we will only store a device-specific ID and the date of purchase.

4.3 In-App-Purchases

An in-app purchase allows you to use our apps free of ads. In the event of an in-app purchase, we will only store a device-specific ID, the date of purchase and the expiry date.

5. Which of your data is collected, processed or used by third parties

5.1 Usage-based online advertising

In the following, we wish to inform you about the data collected, processed and used by our advertising partners:

5.1.1 Data collection in our apps

In our free apps, advertising is displayed. Within the scope of these ads, personal data are collected or used. During the advertising delivery, we and our advertising partners use IP address, anonymous device identifiers (Advertising-ID), and device information (operating system or version, device ID, and language) in order to be able to place relevant advertisements for you.

5.1.2 Who our advertising partners are and how you can object to data collection for usage-based online advertising by our advertising partners

The following advertising partners are responsible for data collection for the delivery of usage-based online advertising:

The processing of personal data (IP address, cookies, device identifiers) is based on your consent (in accordance with Article 6(1)(a) GDPR) or, where applicable, on the legal basis of a legitimate interest (Article 6(1)(f) GDPR).

WetterOnline participates in the IAB Europe Transparency & Consent Framework and complies with its specifications and guidelines. WetterOnline uses the platform to manage consents with the identification number 6.

You can adjust or revoke personalised advertising and the associated data collection and processing through the privacy settings.

5.2 Collection, processing and use of data with Google Analytics

To analyse user behaviour, this app uses Google Analytics, the analysing services of Google Inc., 1600 Amphitheatre Parkway, Mountain View, CA 94043, USA („Google”).

The information about the use (type and version of your device, the operating system, the site visited, date and time of your visit, the screen resolution as well as the IP address used) is transmitted to a Google server in the USA and stored there. We wish to point out that we anonymise the IP address prior to transmission. It is only in exceptional cases that a full IP address is transmitted to a Google server in the US and abridged there. On our behalf, Google uses the information transmitted to assess your use of our app, to compile reports about the activities and to render further services in connection with the use. Google may also transmit information to third parties, if required by law or if third parties process the information on behalf of Google. By no means will Google link your IP address with other Google data.

Moreover, we use the advertising functions of Google Analytics. By means of these functions, it is possible to anonymously collect and process your socio-demographic data using the device-specific advertising ID.

By using our app, you agree to the processing of your data collected by Google and the processing of the data for the purposes described above. To prohibit collection and use of data by Google Analytics in this app, please object to it by disabling the option “Send anonymous usage data“ at the bottom of this data protection statement.

5.3 Collection, processing and use of data with Firebase Analytics

To analyse user behaviour and to integrate Firebase Cloud-Messaging-Services, our app uses the services of Firebase Analytics.

The Firebase-SDK (Software Development Kit) collects information about the app version, the type of device, the version of the operating system, the point of time of the installation of the app as well as the user‘s age, gender and groups of interest. Furthermore, by means of further activities, Firebase SDK collects information during use of the app. The event-driven data collection of Firebase-SDKs is triggered by activities such as installation and start of the app, updates, re-installation, update of the operating system, deletion of app data, app crashes, and in-app purchases as well as

the receipt, the swipe and the opening of push-messages and the opening and updating of the app by means of a dynamic link. For each of these events the number of visits, the number of users triggering the event and, if available, the value of the events is collected. To identify the devices, Firebase-SDK uses the device-specific advertising ID.

By using our app, you agree to the processing of your data collected by Firebase and the collection of data for the purposes as described above. To prohibit the collection and use of data by Firebase Analytics in this app, please object to it by disabling the option “Send anonymous usage data “at the bottom of this data protection statement.

5.4 Collection, processing and use of data with Facebook-SDKs

In this app, we integrate so-called Facebook-SDKs. This software allows a follow-up of the type of advertising campaign in Facebook that prompted users to download our app. To this end, we transmit to Facebook the device-specific advertising ID, the app version and the information that the app was started or cancelled.

You can object to the transfer of the above data to Facebook in this app by deactivating the option “Send anonymous usage data “at the bottom of this data privacy statement.

5.5 Collection, processing and use of data using AppsFlyer

Our application uses the service of AppsFlyer, an analysis service provided by AppsFlyer Inc. (111 New Montgomery St, San Francisco, CA 94105, USA). In order to improve the content and usability of our apps and our advertising efforts, session, interaction, and marketing data will be collected from you. This data is always collected anonymously and only evaluated on an anonymous basis. Depending on the campaign, the data is also anonymously shared with connected advertising networks. The data is only used to measure the success of marketing campaigns and to improve them. For more information on the use and collection of data by AppsFlyer, please see the following link: https://www.appsflyer.com/privacy-policy/. AppsFlyer is certified according to the EU-US Privacy Shield agreement and thus guarantees compliance with European data protection laws.

The legal basis for the use is Article 6(1)(f) of the GDPR.

By using our app, you agree to the processing of your data by AppsFlyer and the collection of data for the purposes as described above. To prohibit the collection and use of data by AppsFlyer in this app, please object to it by disabling the option "Send anonymous usage data" at the bottom of the data protection statement.

5.6 Collection, processing, and use of data when using Batch

Our application uses the service of Batch for sending push messages. The provider is IMEDIAPP SA (batch.com), 43 rue Beaubourg, 75003 Paris, France.

The processing of personal data is based on your consent (Art.6 para.1 lit. a GDPR) to send push messages or on our legitimate interests (Art.6 para.1 lit. f GDPR) in optimising our push messages. Batch receives the following from us for sending push messages

a pseudonymised user ID,

your IP address,

a push token,

the status about the decision whether you want to receive notifications,

browser and operating system information,

geo-based information, and

information about the version of Batch used, messages sent, and usage behaviour.

Batch accesses the browser's LocalStorage. At the same time, we use tools from Batch to record the use of the various functions of the app to provide you with a targeted offer via push notifications.

We have concluded a Data Processing Agreement (DPA) with Batch, in which we oblige Batch to protect our customers' data and not to pass it on to third parties, and to comply with the requirements of the DSGVO.

You can find more information on data processing by Batch at https://batch.com/privacy-policy.

5.7 Collection, processing, and usage of data when using Contentful

Parts of the contents of our apps are provided through the Contentful Content Delivery Network (CDN) of Contentful GmbH (Ritterstr. 12-14, 10969 Berlin). Accessing these contents establishes a connection to servers of Contentful GmbH. The use of the Contentful CDN is based on our legitimate interests under Art. 6 para. 1 lit. f GDPR. Your IP address and information about the used browser will only be processed by the Contentful CDN for the aforementioned purposes and to maintain functionality and security. The storage duration of the processed data and further information can be found in the privacy policy of Contentful GmbH at https://www.contentful.com/legal/privacy-at-contentful/privacy-notice/.

5.8 Collection, processing, and use of data during on demand media and live stream playback

The app provides streaming content via the partners Akamai Technologies GmbH (Parkring 20 - 22, D-85748 Garching, Germany) and THEO Technologies NV (1B Kolonel Begaultlaan, 3rd floor Leuven 3012, Belgium). When a page is called up on which playback devices for streams are offered, information about your browser and your IP address, with which you visit our page, is transmitted to the servers of the above-mentioned providers.

The use of the Akamai CDN and THEO Technologies NV streaming service is based on our legitimate interests according to Art. 6 (1) (f) GDPR. For more information, you can refer to the privacy policies of Akamai Technologies GmbH at https://www.akamai.com/de/de/privacy-policies/ and THEO Technologies NV at https://www.theoplayer.com/terms.

5.9 Collection, processing, and usage of data when using Purple DS

Parts of the contents of our apps are provided through the Digital Publishing Software Purple by sprylab technologies GmbH (Keithstr. 2-4, 10787 Berlin). Accessing these contents establishes a connection to servers of sprylab technologies GmbH. The use of the Digital Publishing Software Purple is based on our legitimate interests under Art. 6 para. 1 lit. f GDPR. Your IP address and information about the used browser will only be processed by the Digital Publishing Software Purple for the aforementioned purposes and to maintain functionality and security. The storage duration of the processed data and further information can be found in the privacy policy of sprylab technologies GmbH under https://www.purplepublish.com/en/dataprivacy.

5.10 Collection, processing and use of data when using third-party embeddings

We will only show you embedded third-party content after your explicit consent. Your selection will then be stored permanently (no longer than 12 months) as a cookie called "embed_consent" on your device. The consent can be revoked at any time here. You can learn more about the data protection notices of the individual third-party providers at the link provided.

6. Rights of the data subject

The data subject shall have the following rights:

Right of access (Art. 15 GDPR)

Right to rectification (Art. 16 GDPR)

Right to object (Art. 21 GDPR)

Right to erasure (Art. 17 GDPR)

Right to restriction of processing (Art. 18f. GDPR)

Right to data portability (Art. 20 GDPR)

For requests of this kind, please contact datenschutz@wetteronline.de. Please note that for such requests, we must ensure that it is actually the affected person.

Every data subject shall have the right to lodge a complaint with a supervisory authority. You can either consult the appropriate data protection authority for your location, or the data protection authority responsible for us (Landesbeauftragte für Datenschutz und Informationsfreiheit Nordrhein-Westfalen,Postfach 20 04 44, 40102 Düsseldorf).

7. Regular updating of this data protection notice

The legal framework concerning us as service provider is characteristically subject to changes and amendments. These changes and amendments require the occasional updating of these data privacy notes. We will therefore inform you of possible alterations.

8. Contact us
